AUTHENTICATION

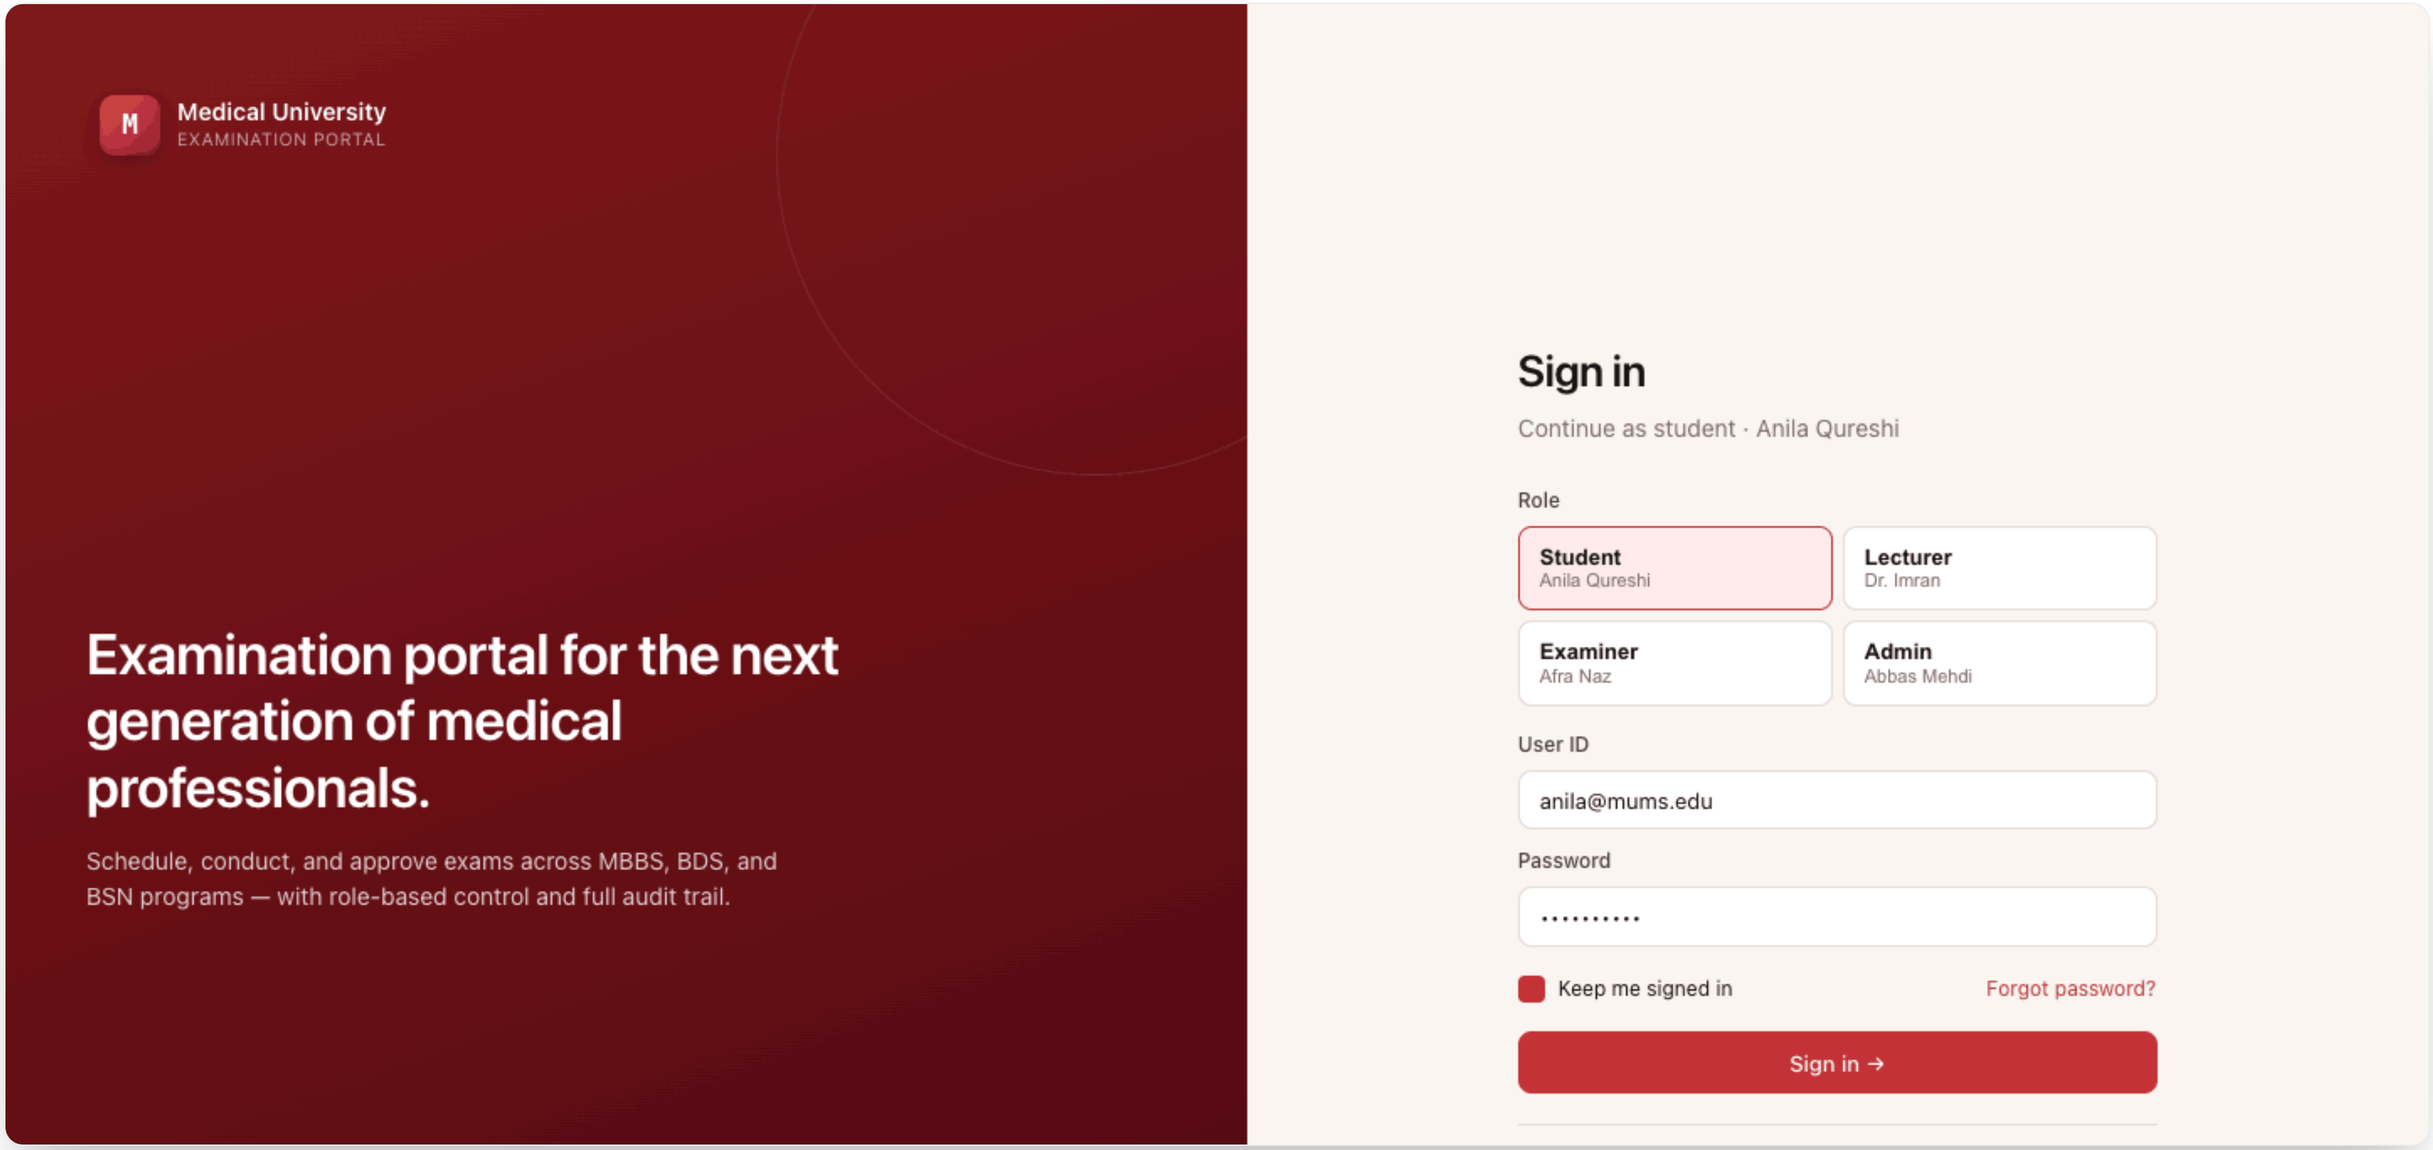

Getting in

Account access, sign in, and password recovery — the surface every user passes through.

A1 · AUTH

Sign in

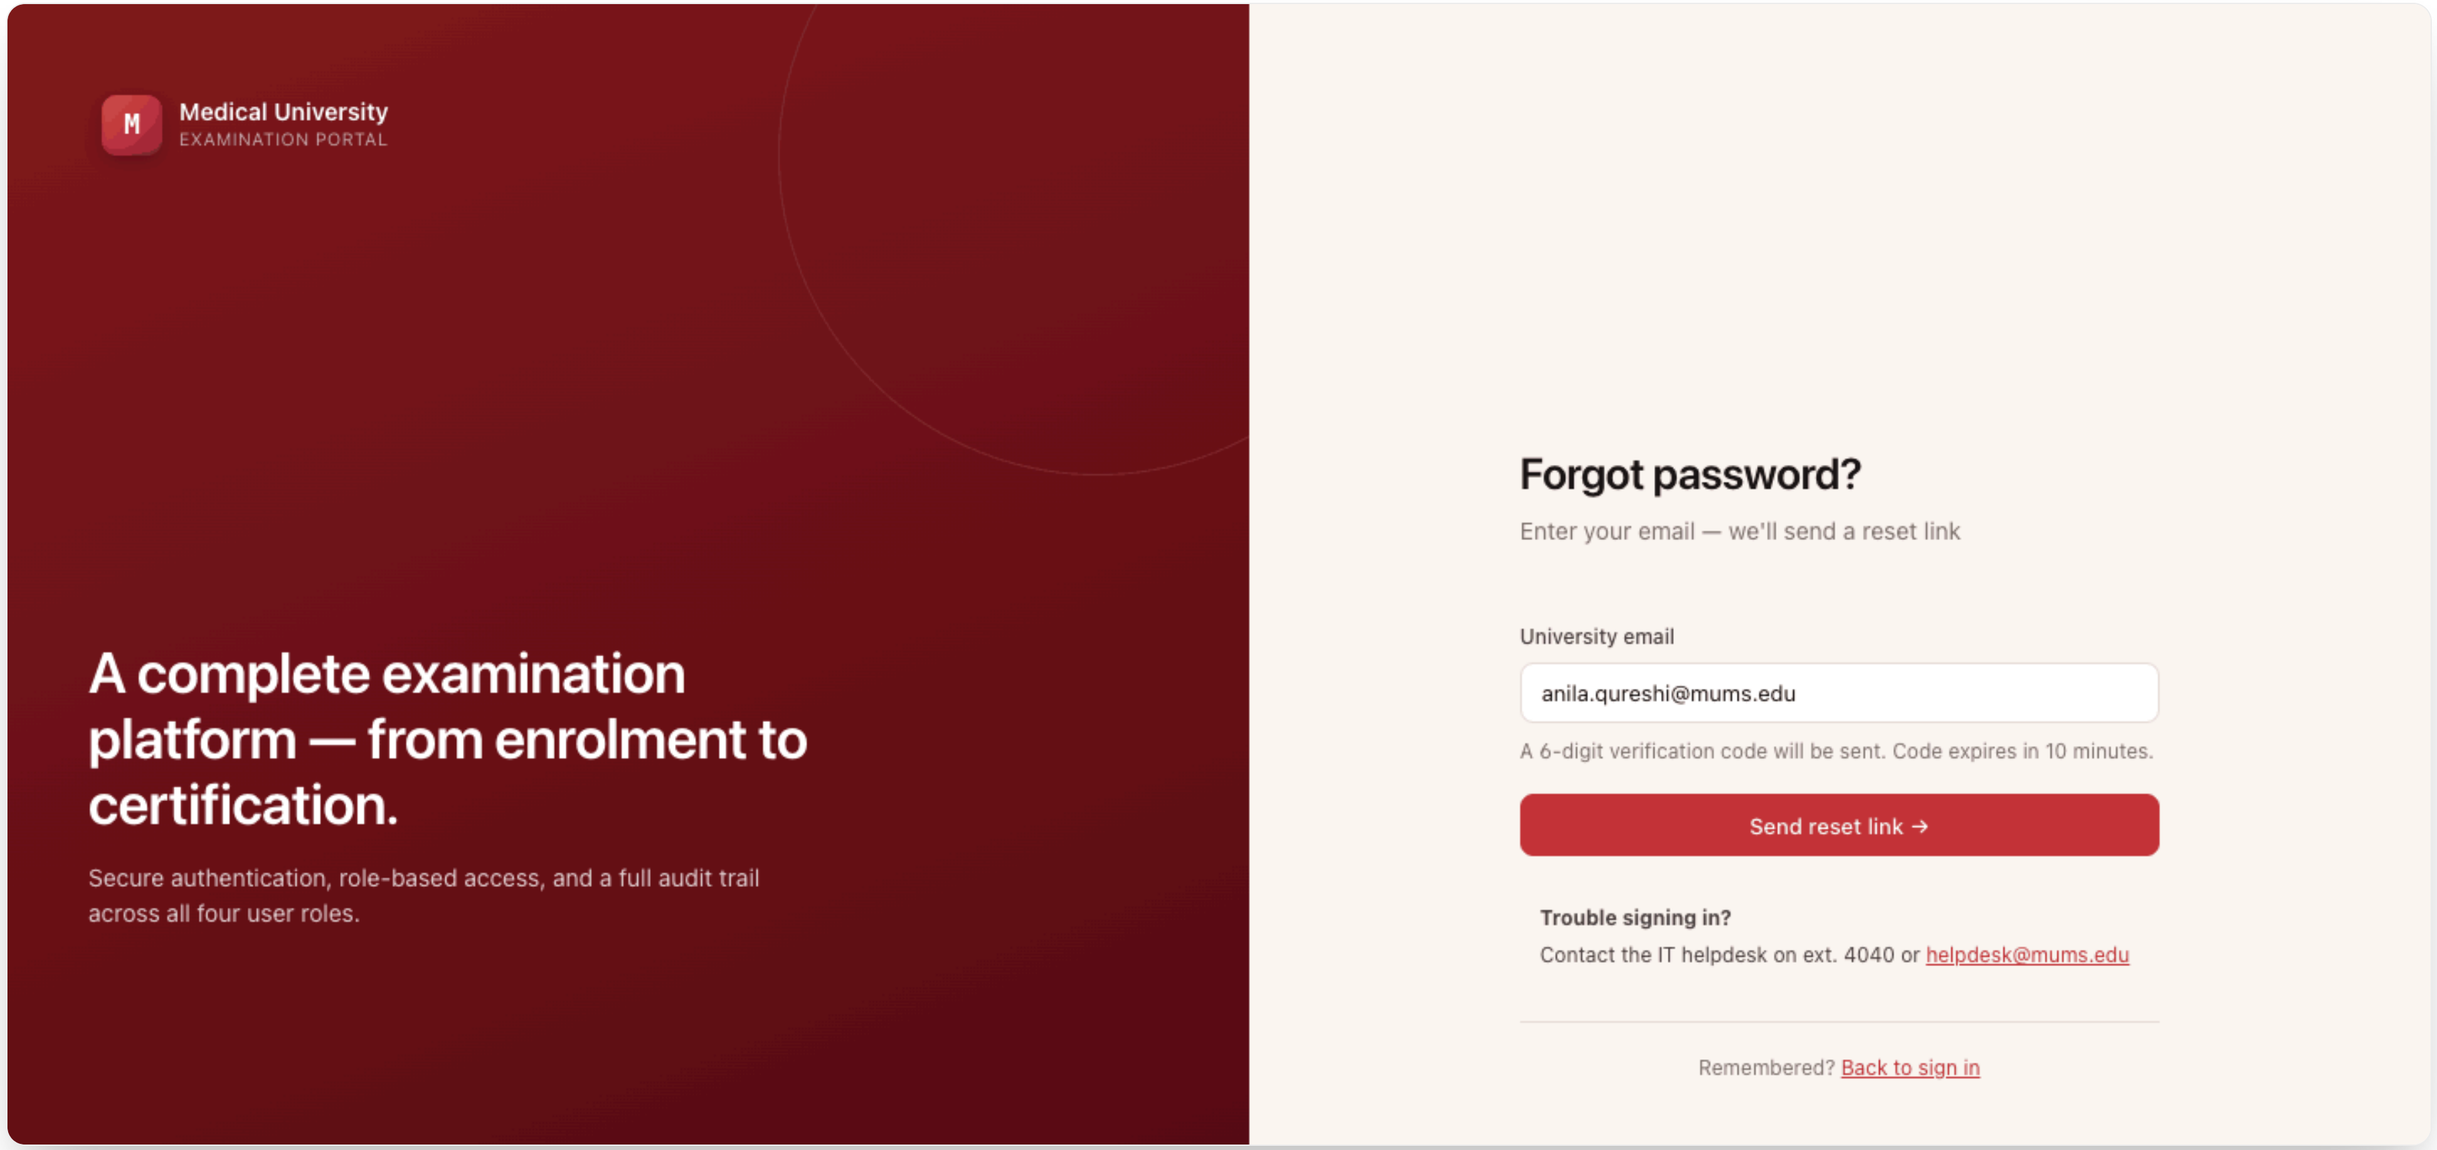

Single entry point for all four roles.

A2 · AUTH

Forgot password

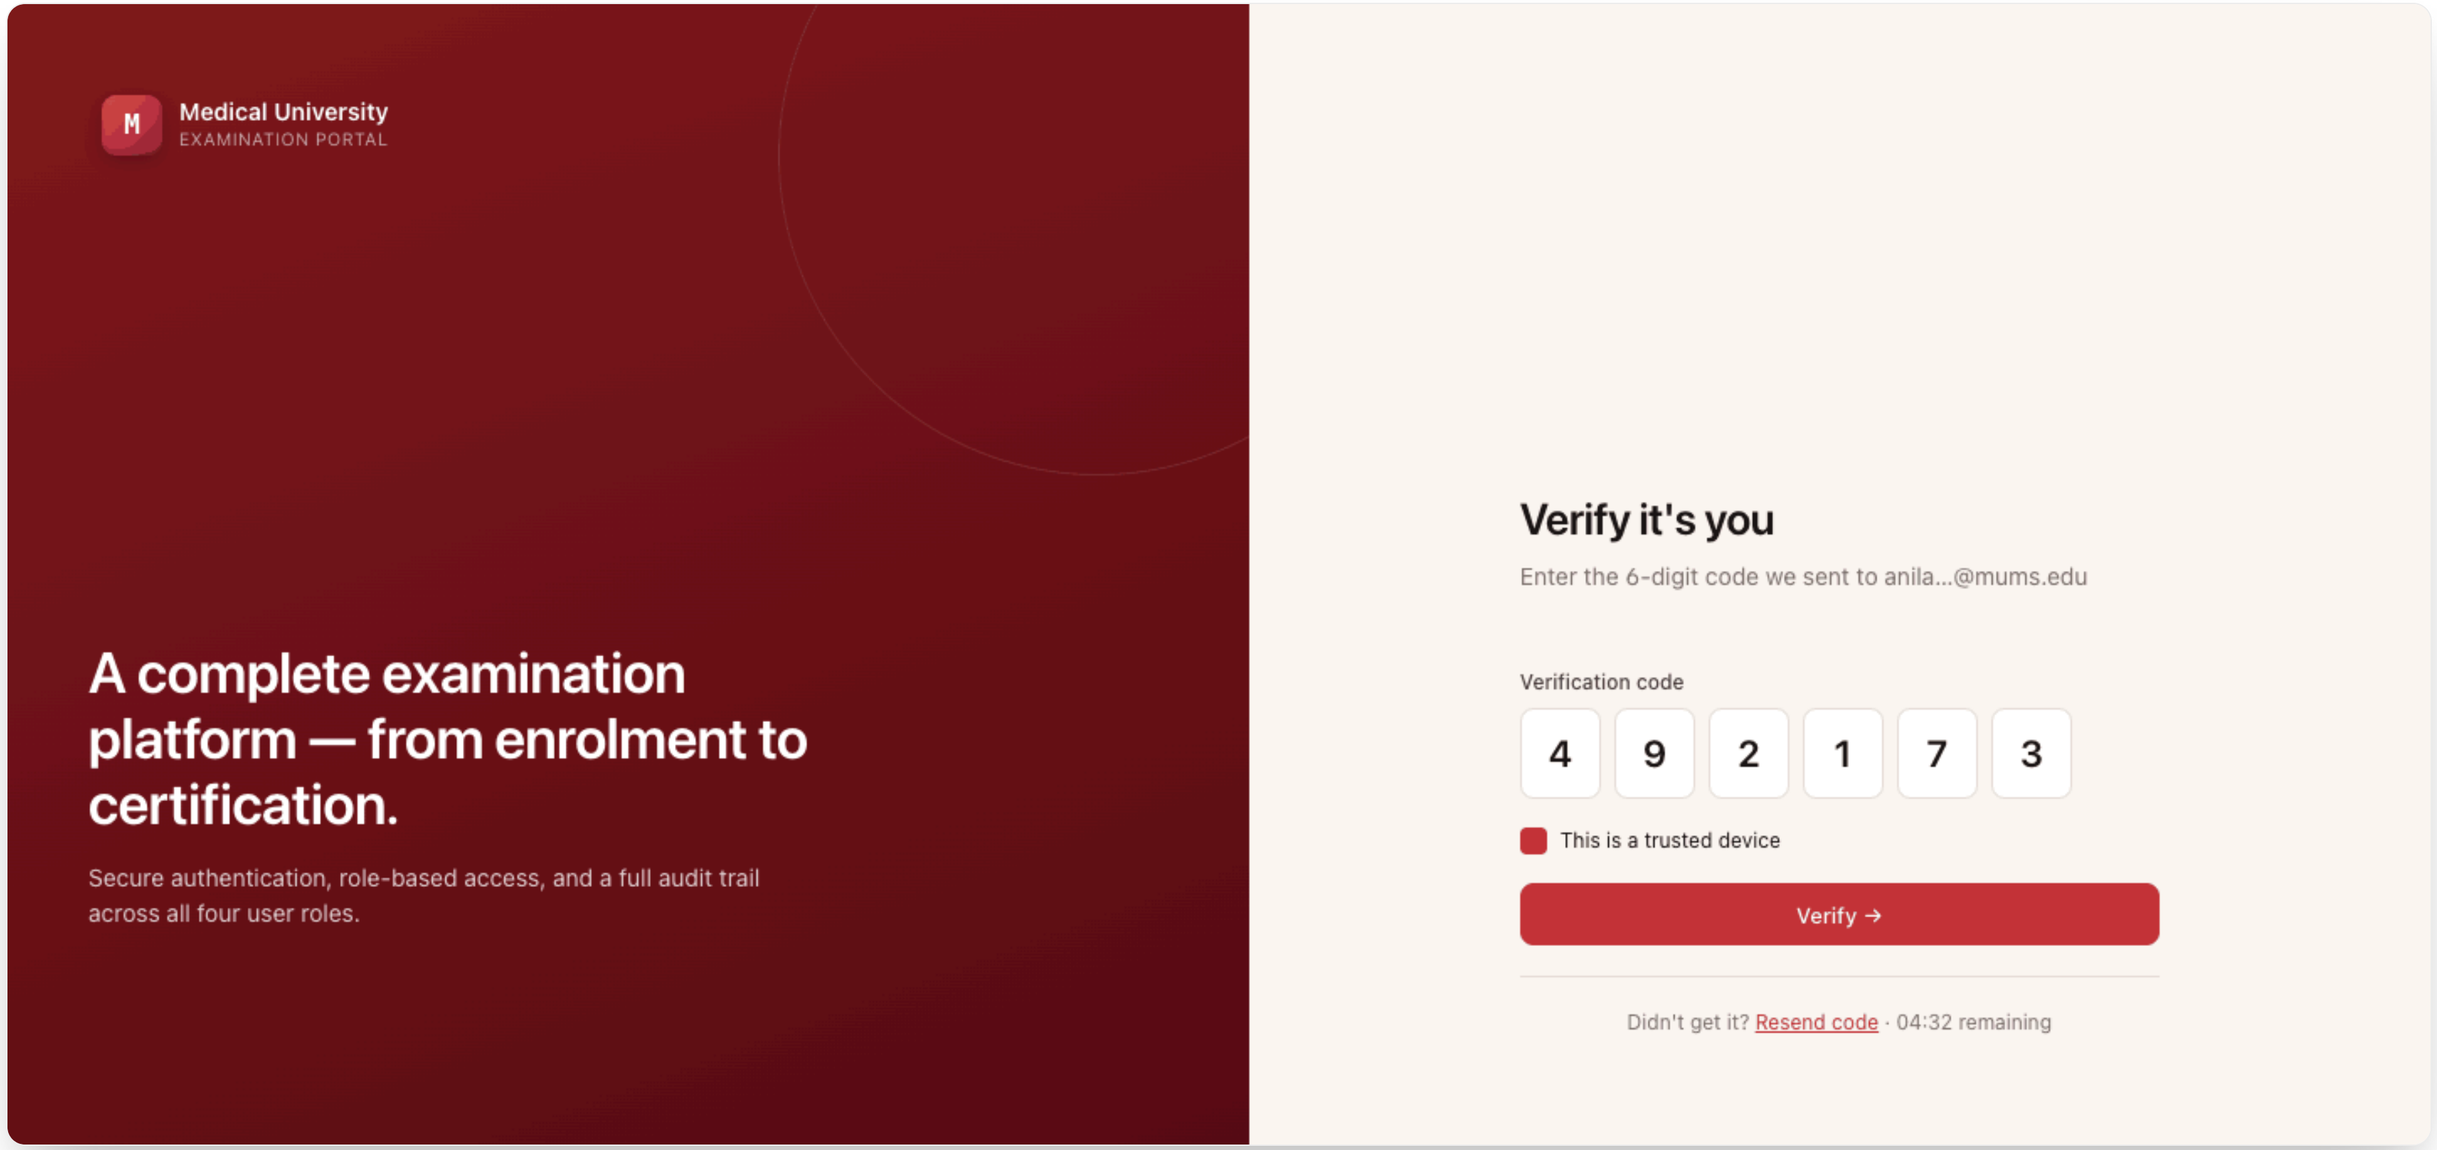

Email-driven recovery with helpdesk fallback.

A3 · AUTH

Verify code

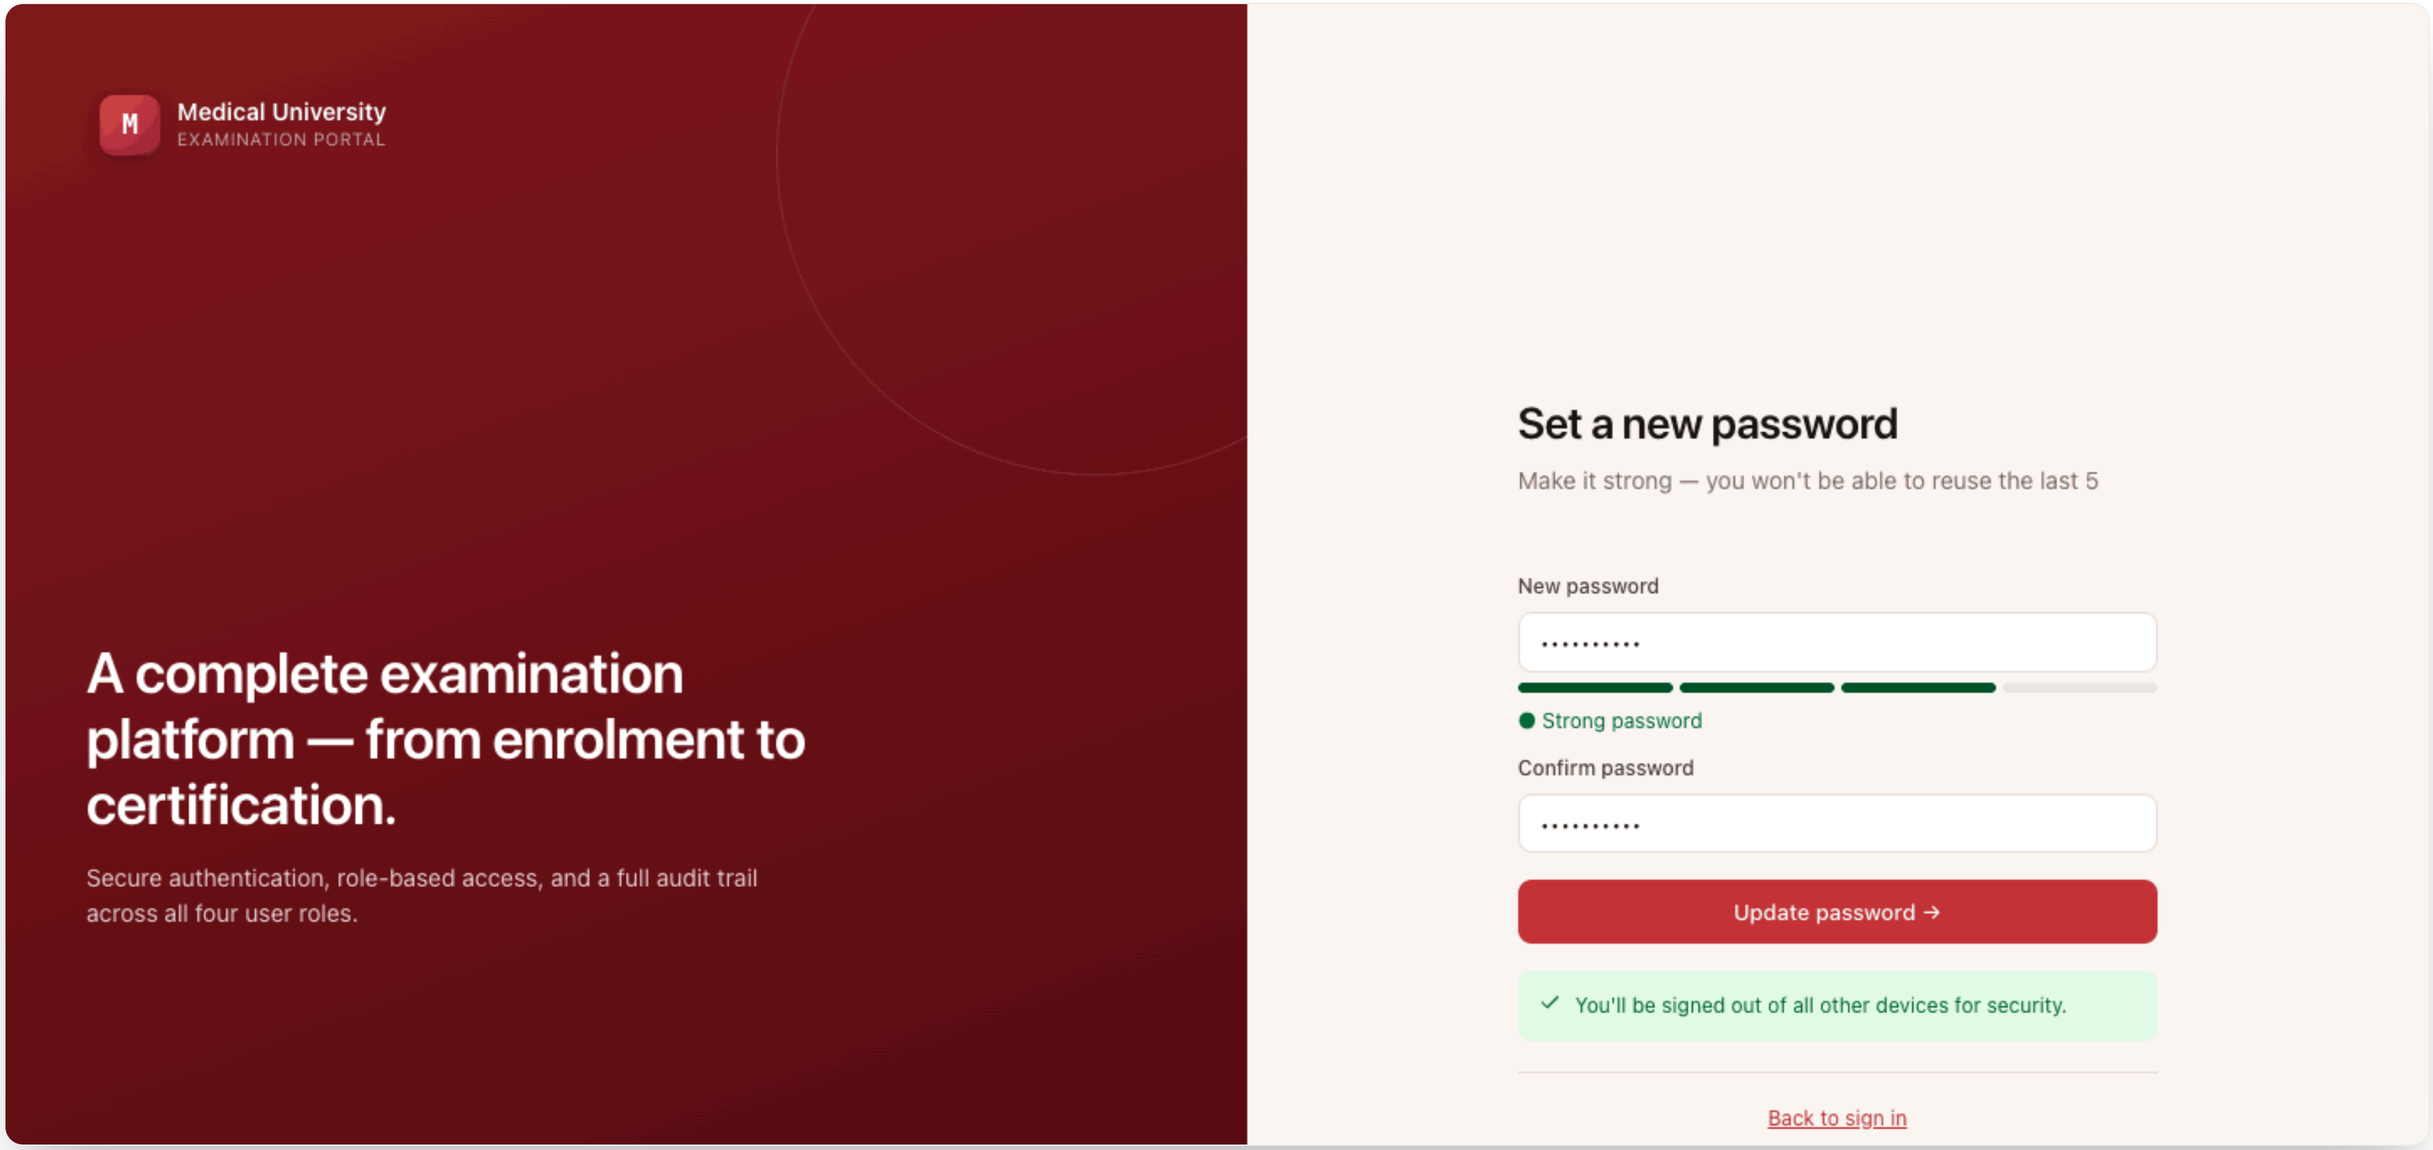

Six-digit OTP · 10-minute expiry.

A4 · AUTH

Reset password

Strength meter and forced sign-out of other devices.

01

ROLE · STUDENT

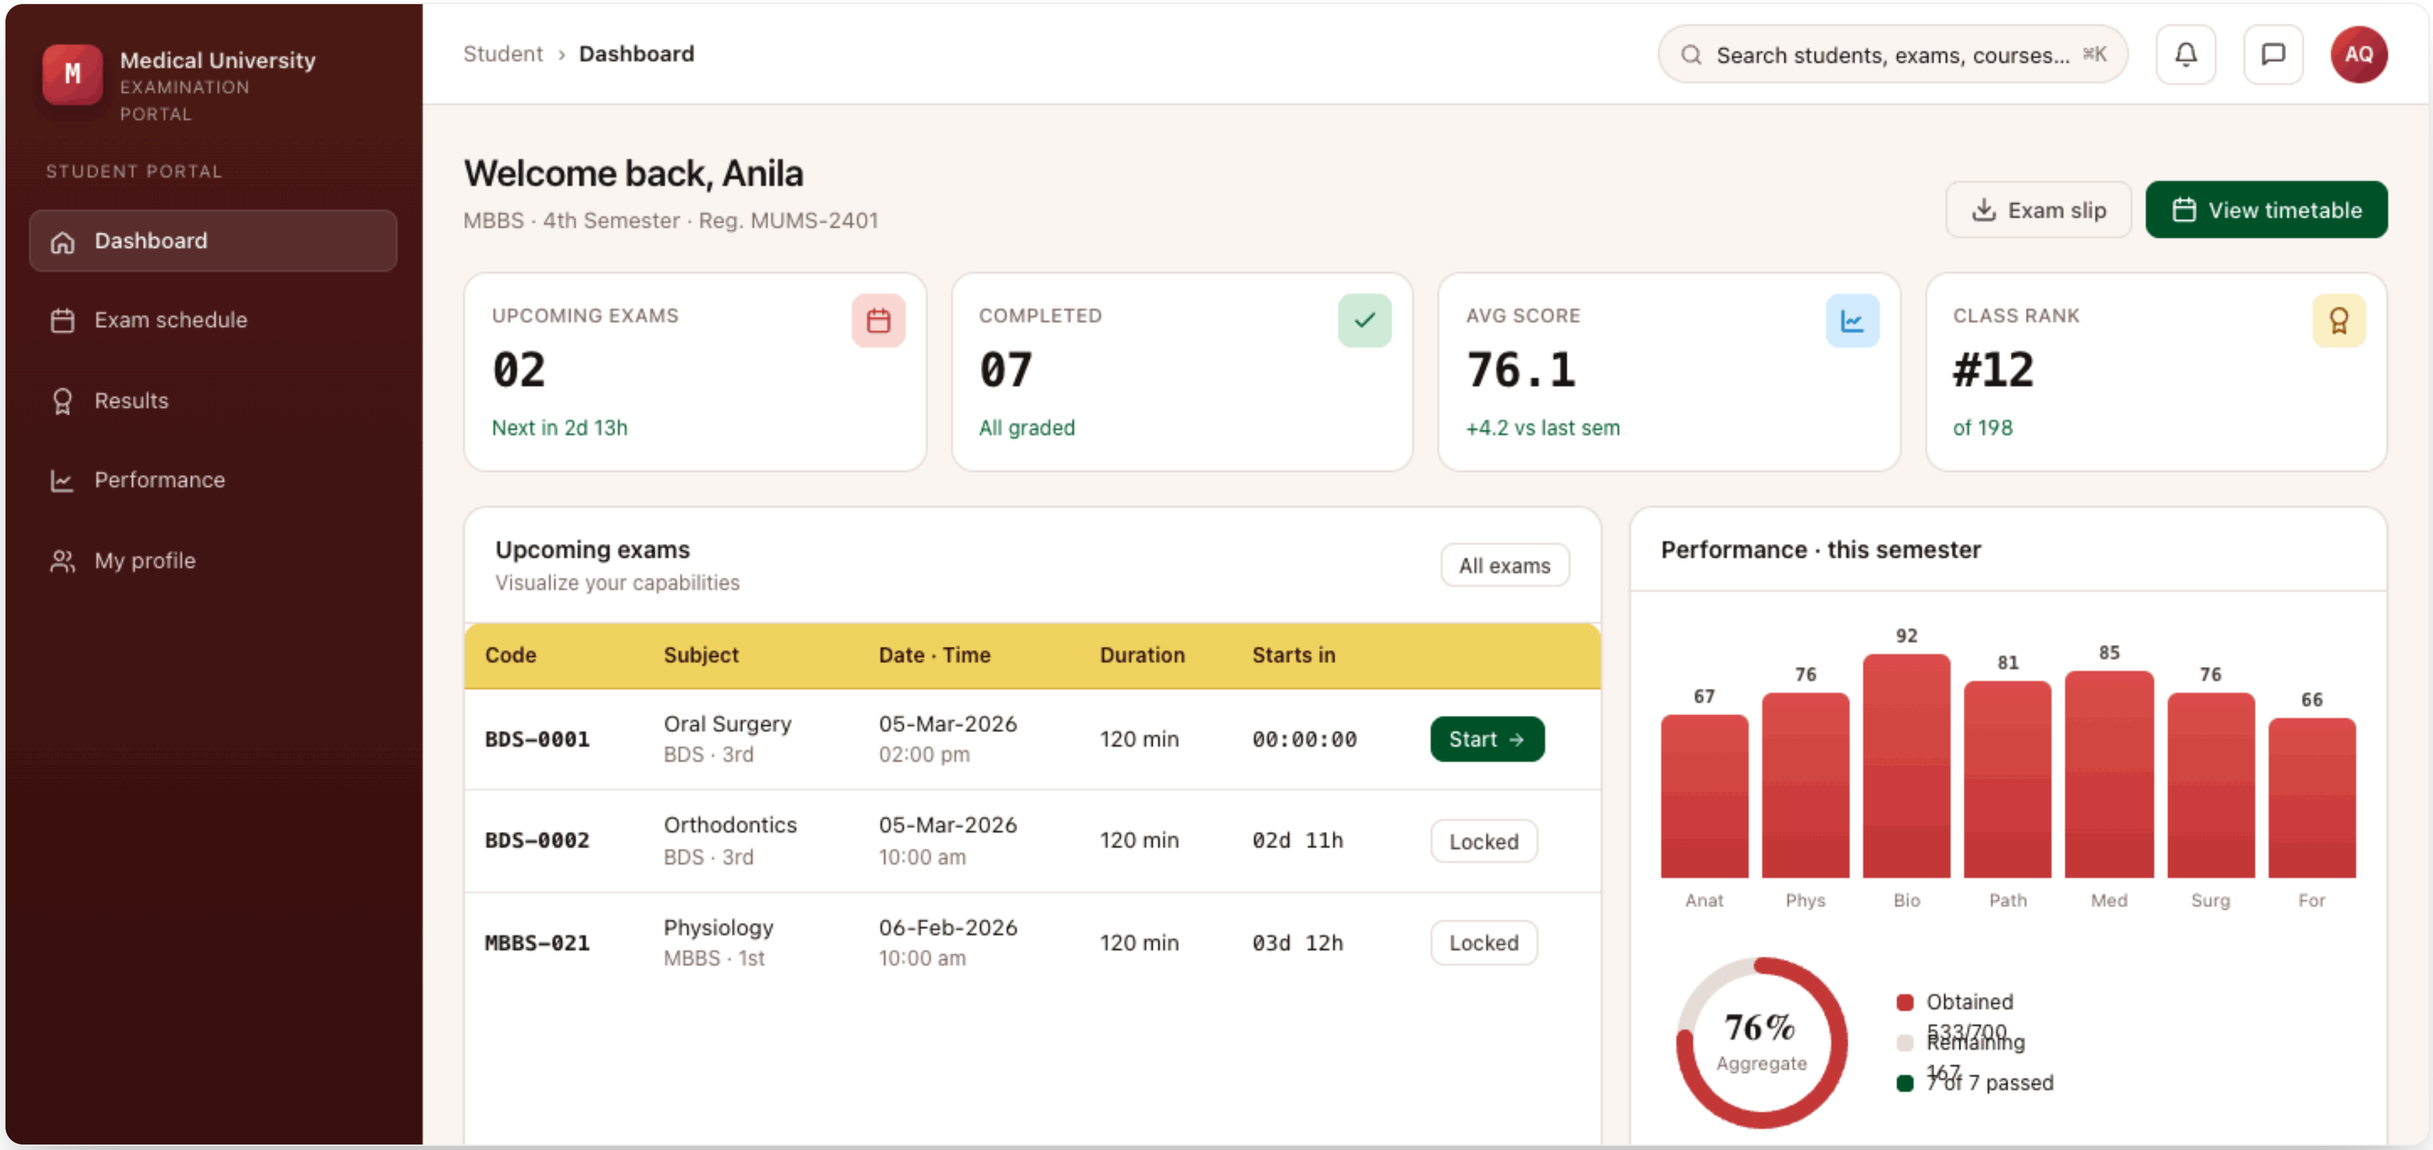

The candidate's journey

Dashboard, schedule, performance, profile,
the live exam, and final results.

S1 · STUDENT

Dashboard

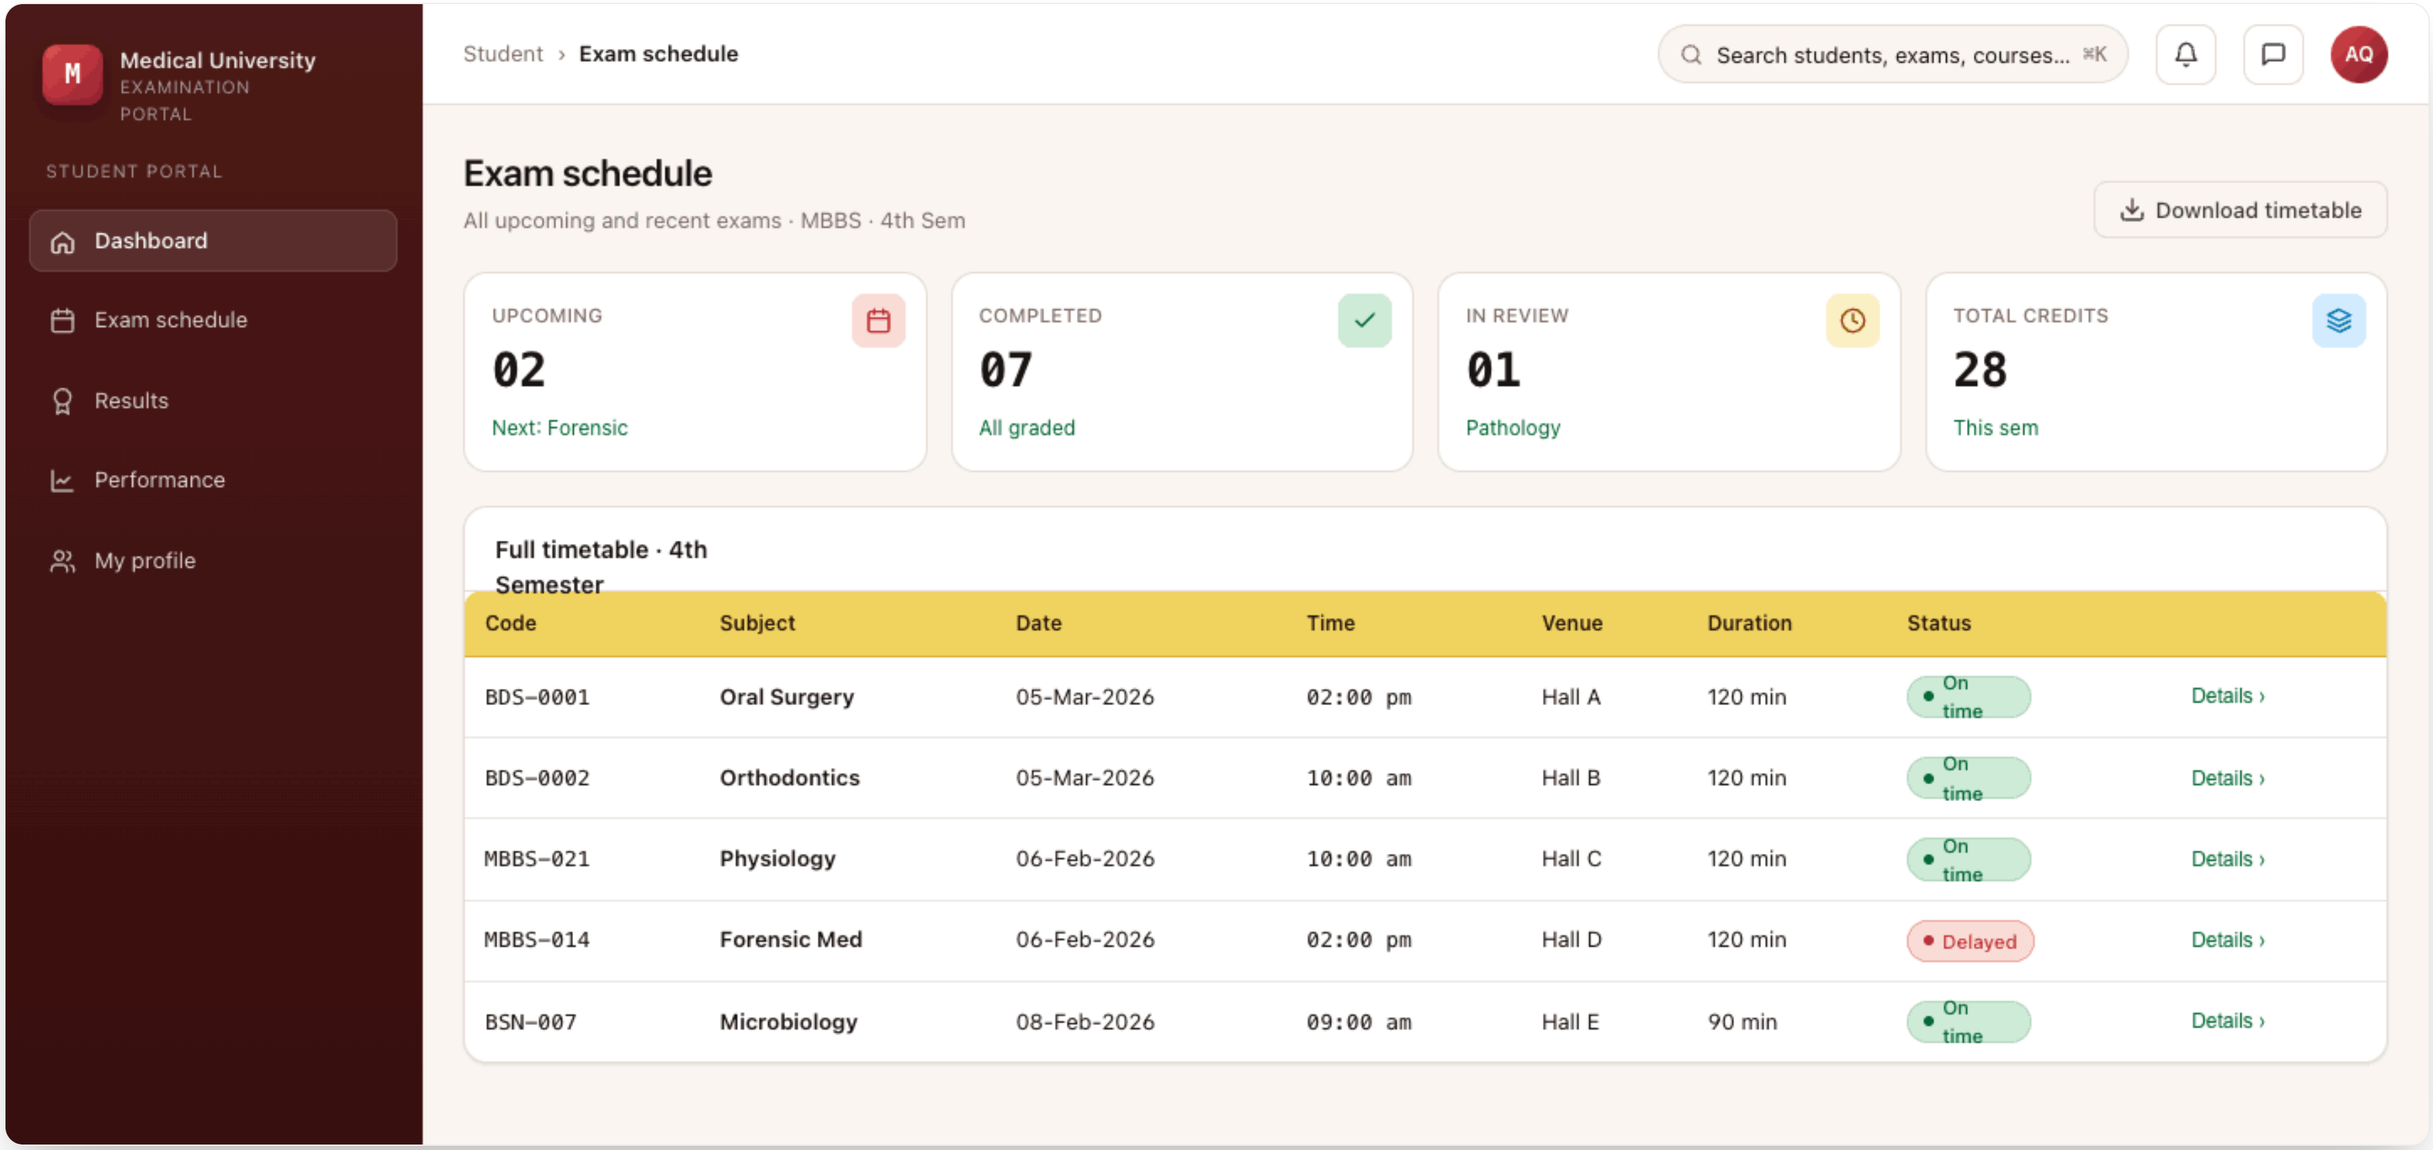

Upcoming exams, performance summary, exam slip.

S2 · STUDENT

Exam schedule

Full semester timetable with venues and durations.

S3 · STUDENT

Online exam

Timer, palette, skip-tracking, anti-cheat indicators.

M **Forensic Medicine** · MBBS · 4th Sem · Total 100 marks · 50 questions

ELAPSED 00:00:12 | REMAINING 119:48 | Submit exam

QUESTION 01 / 12

The middle cerebral artery primarily supplies which of the following regions of the cerebral cortex?

- A Medial frontal lobe
- B Lateral frontal and parietal lobes
- C Occipital pole
- D Inferior temporal lobe

Answered · Skipped · Current · Not visited

S4 · STUDENT

Results & certificate

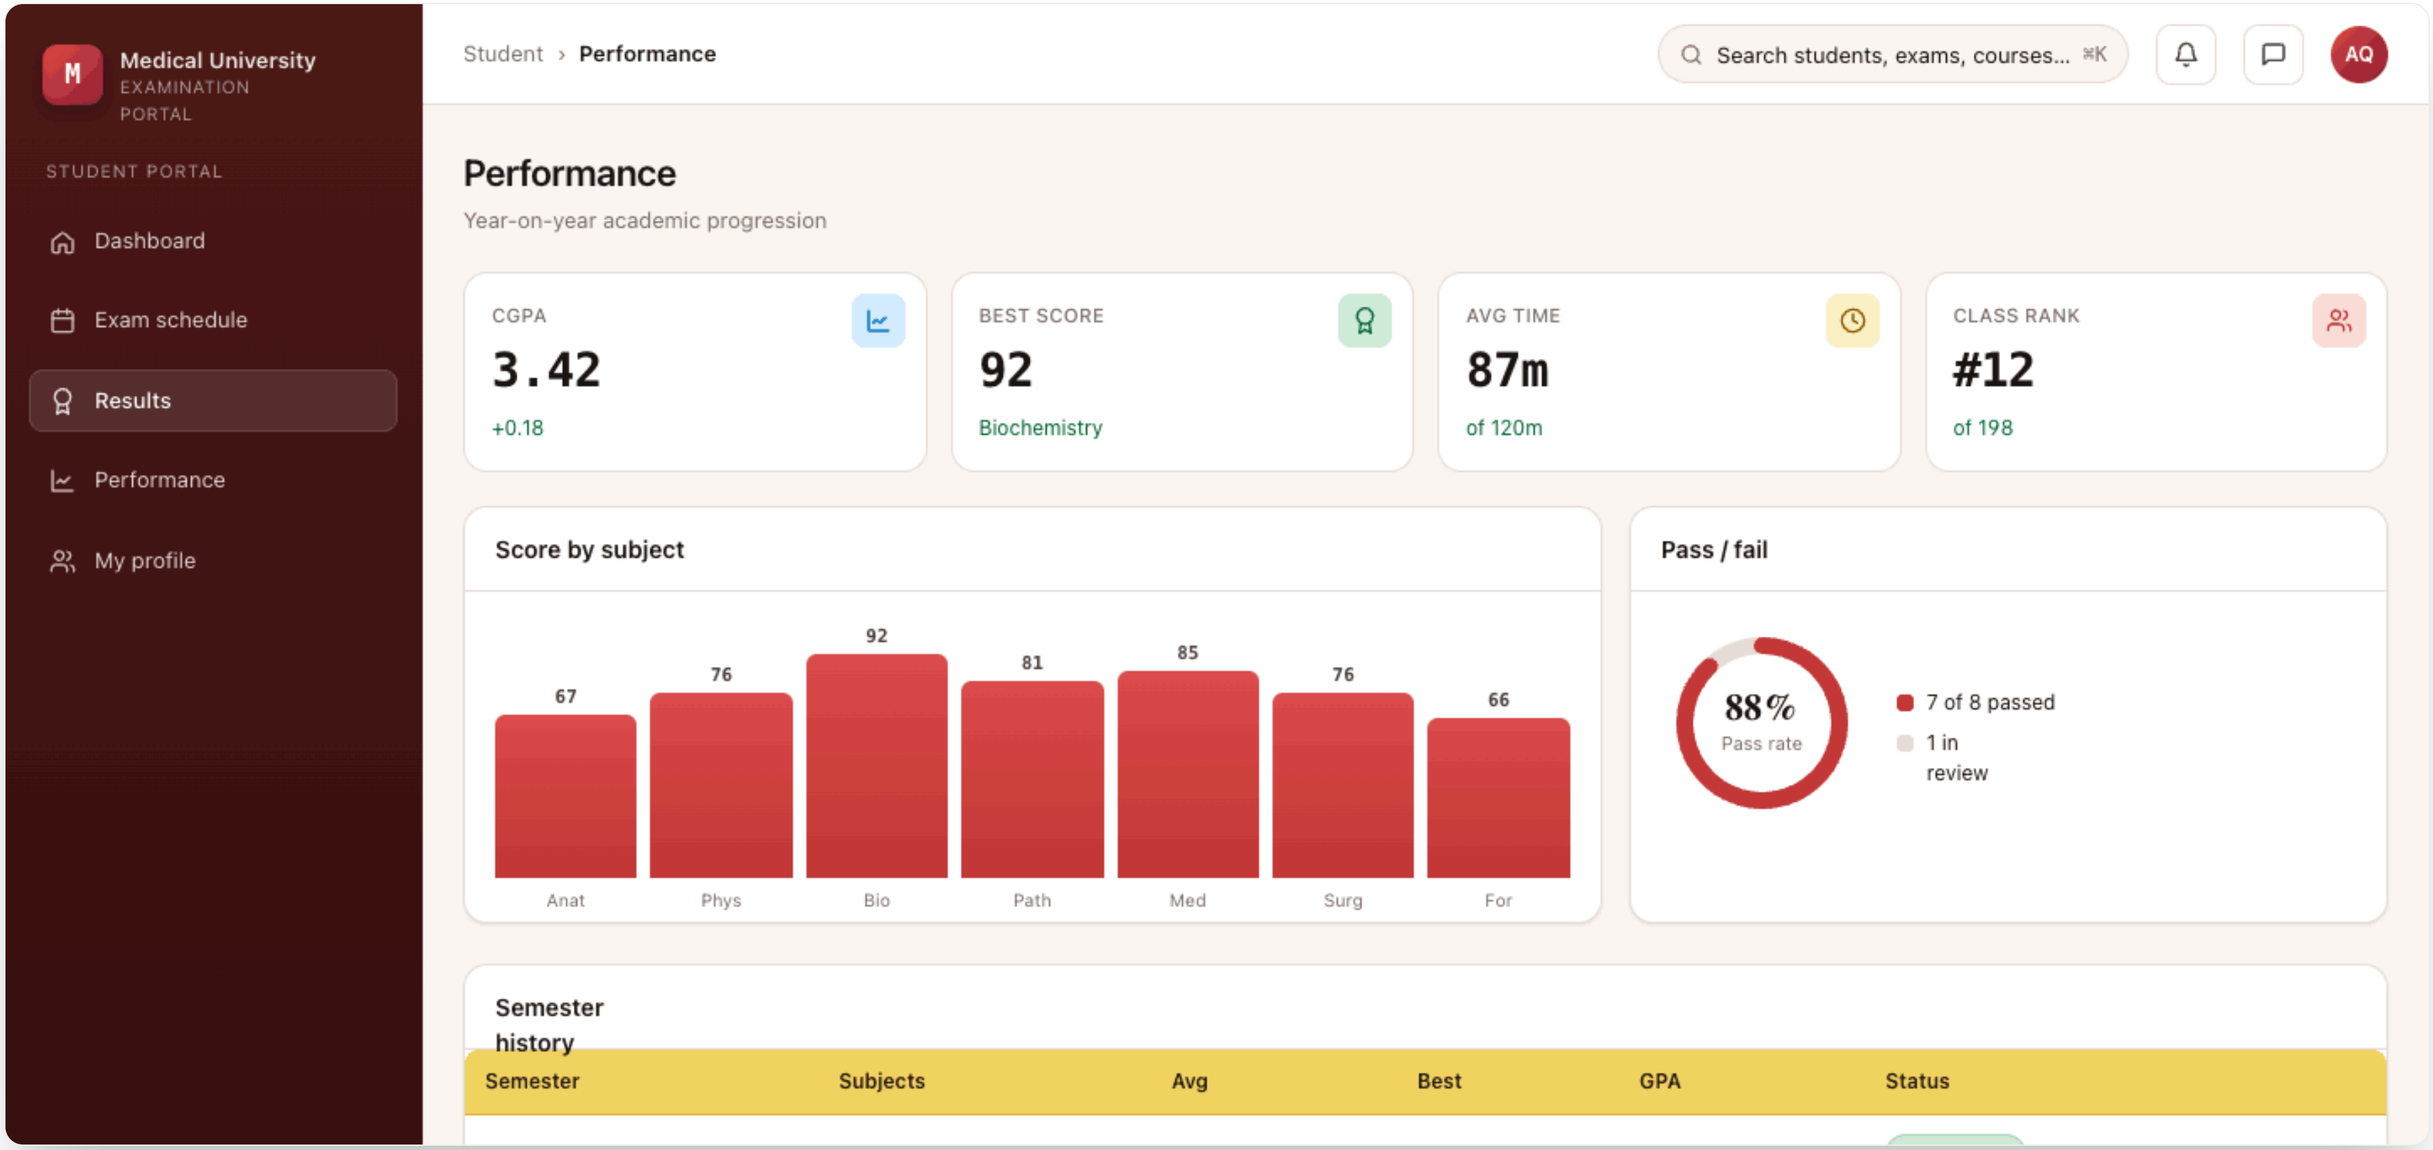

Score breakdown, transcript, printable certificate.

S5 · STUDENT

Performance

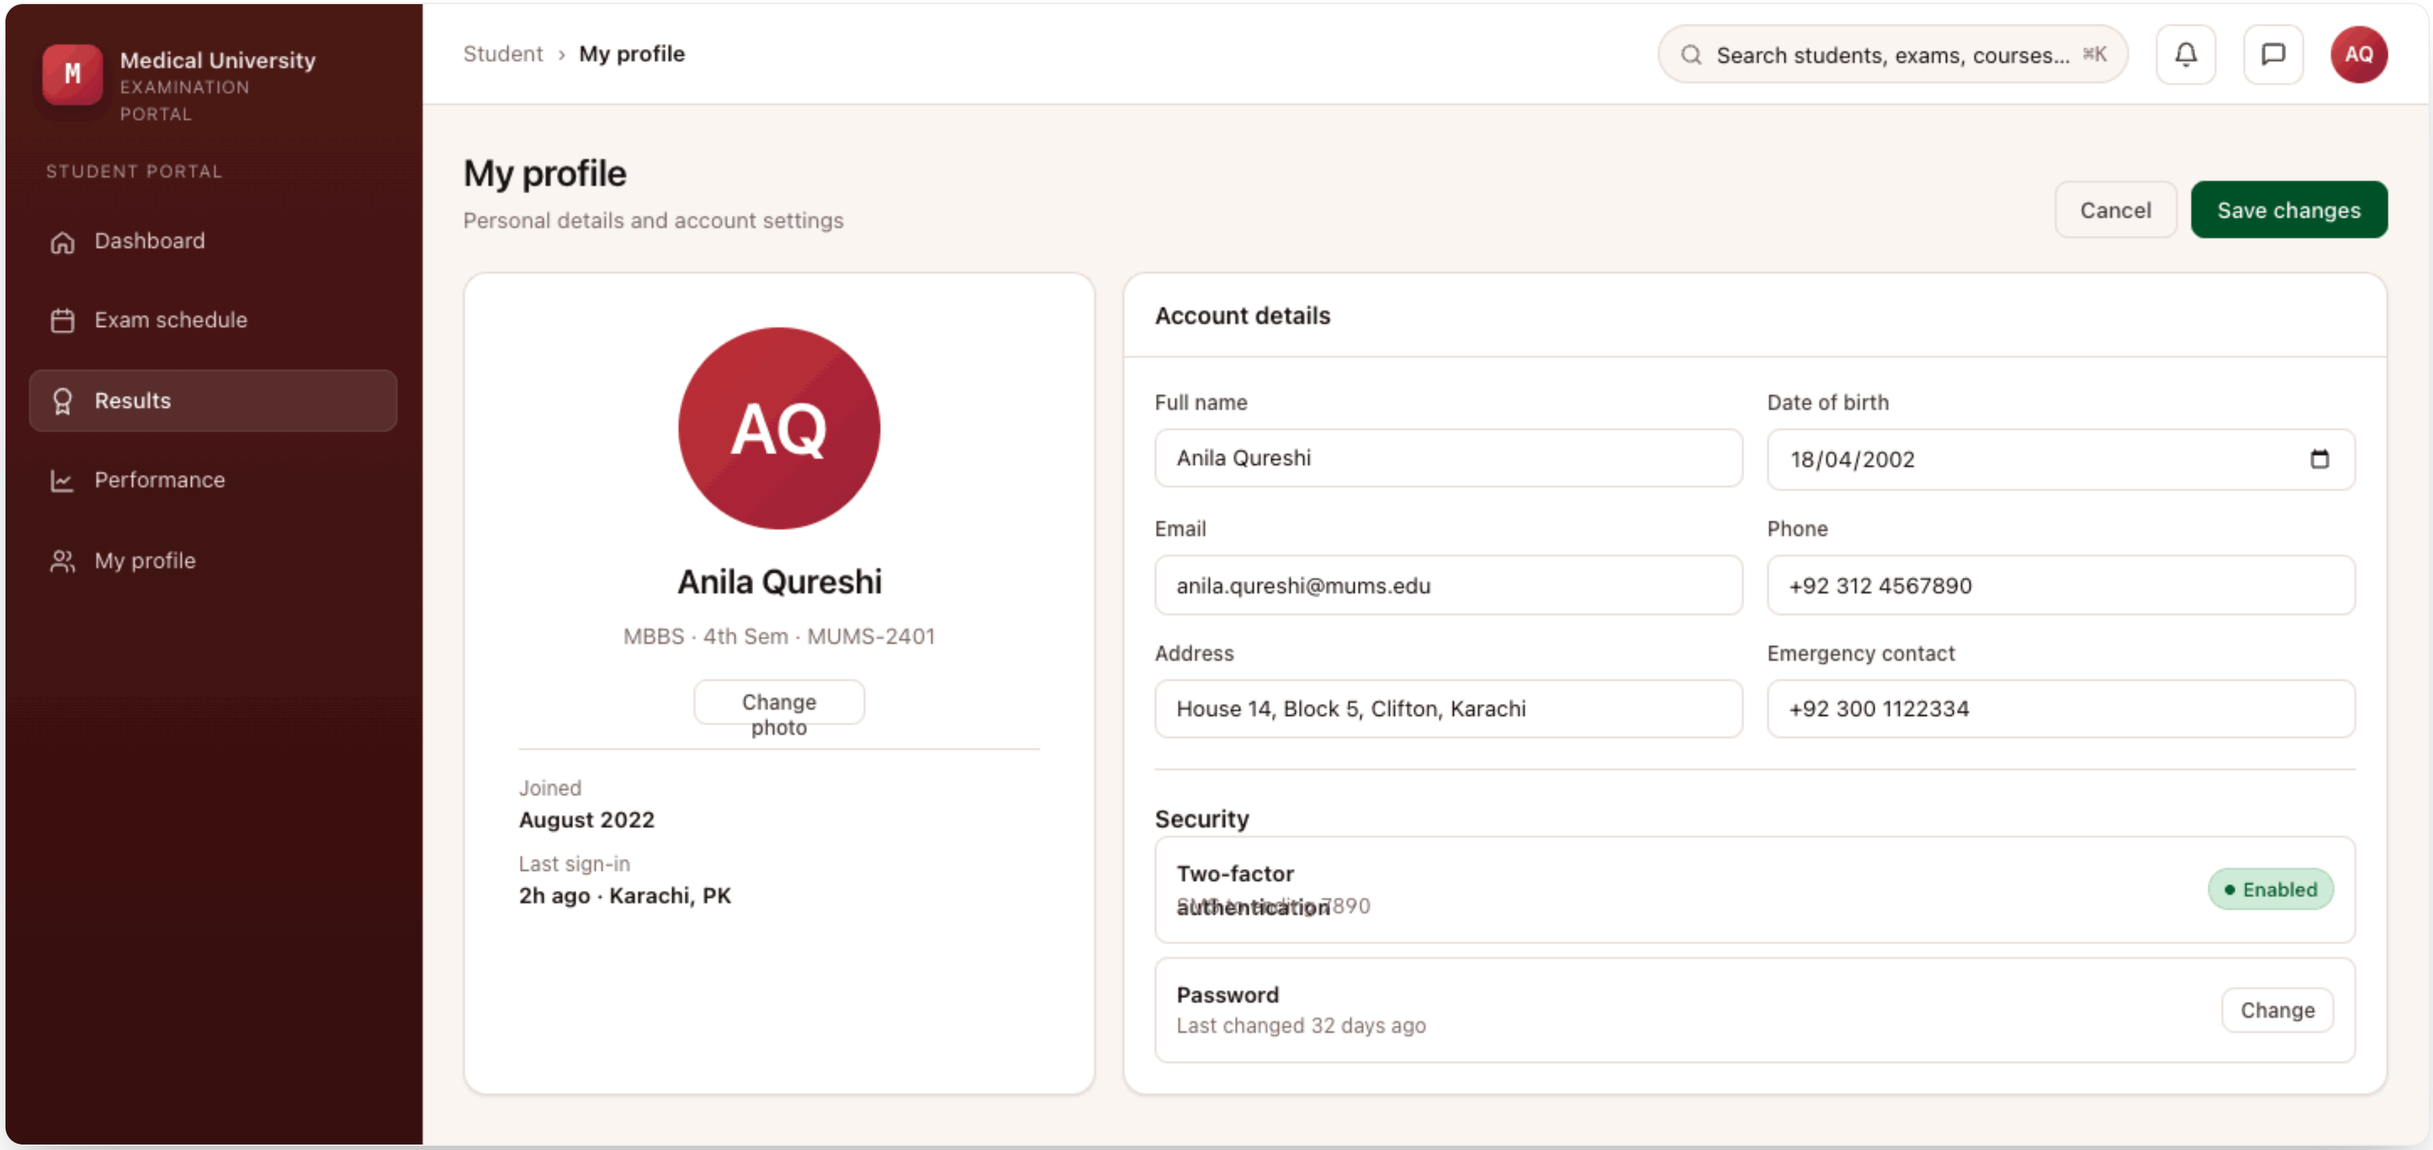

CGPA, semester history, subject progression.

S6 · STUDENT

My profile

Personal details, contact info, two-factor authentication.

02

ROLE · LECTURER

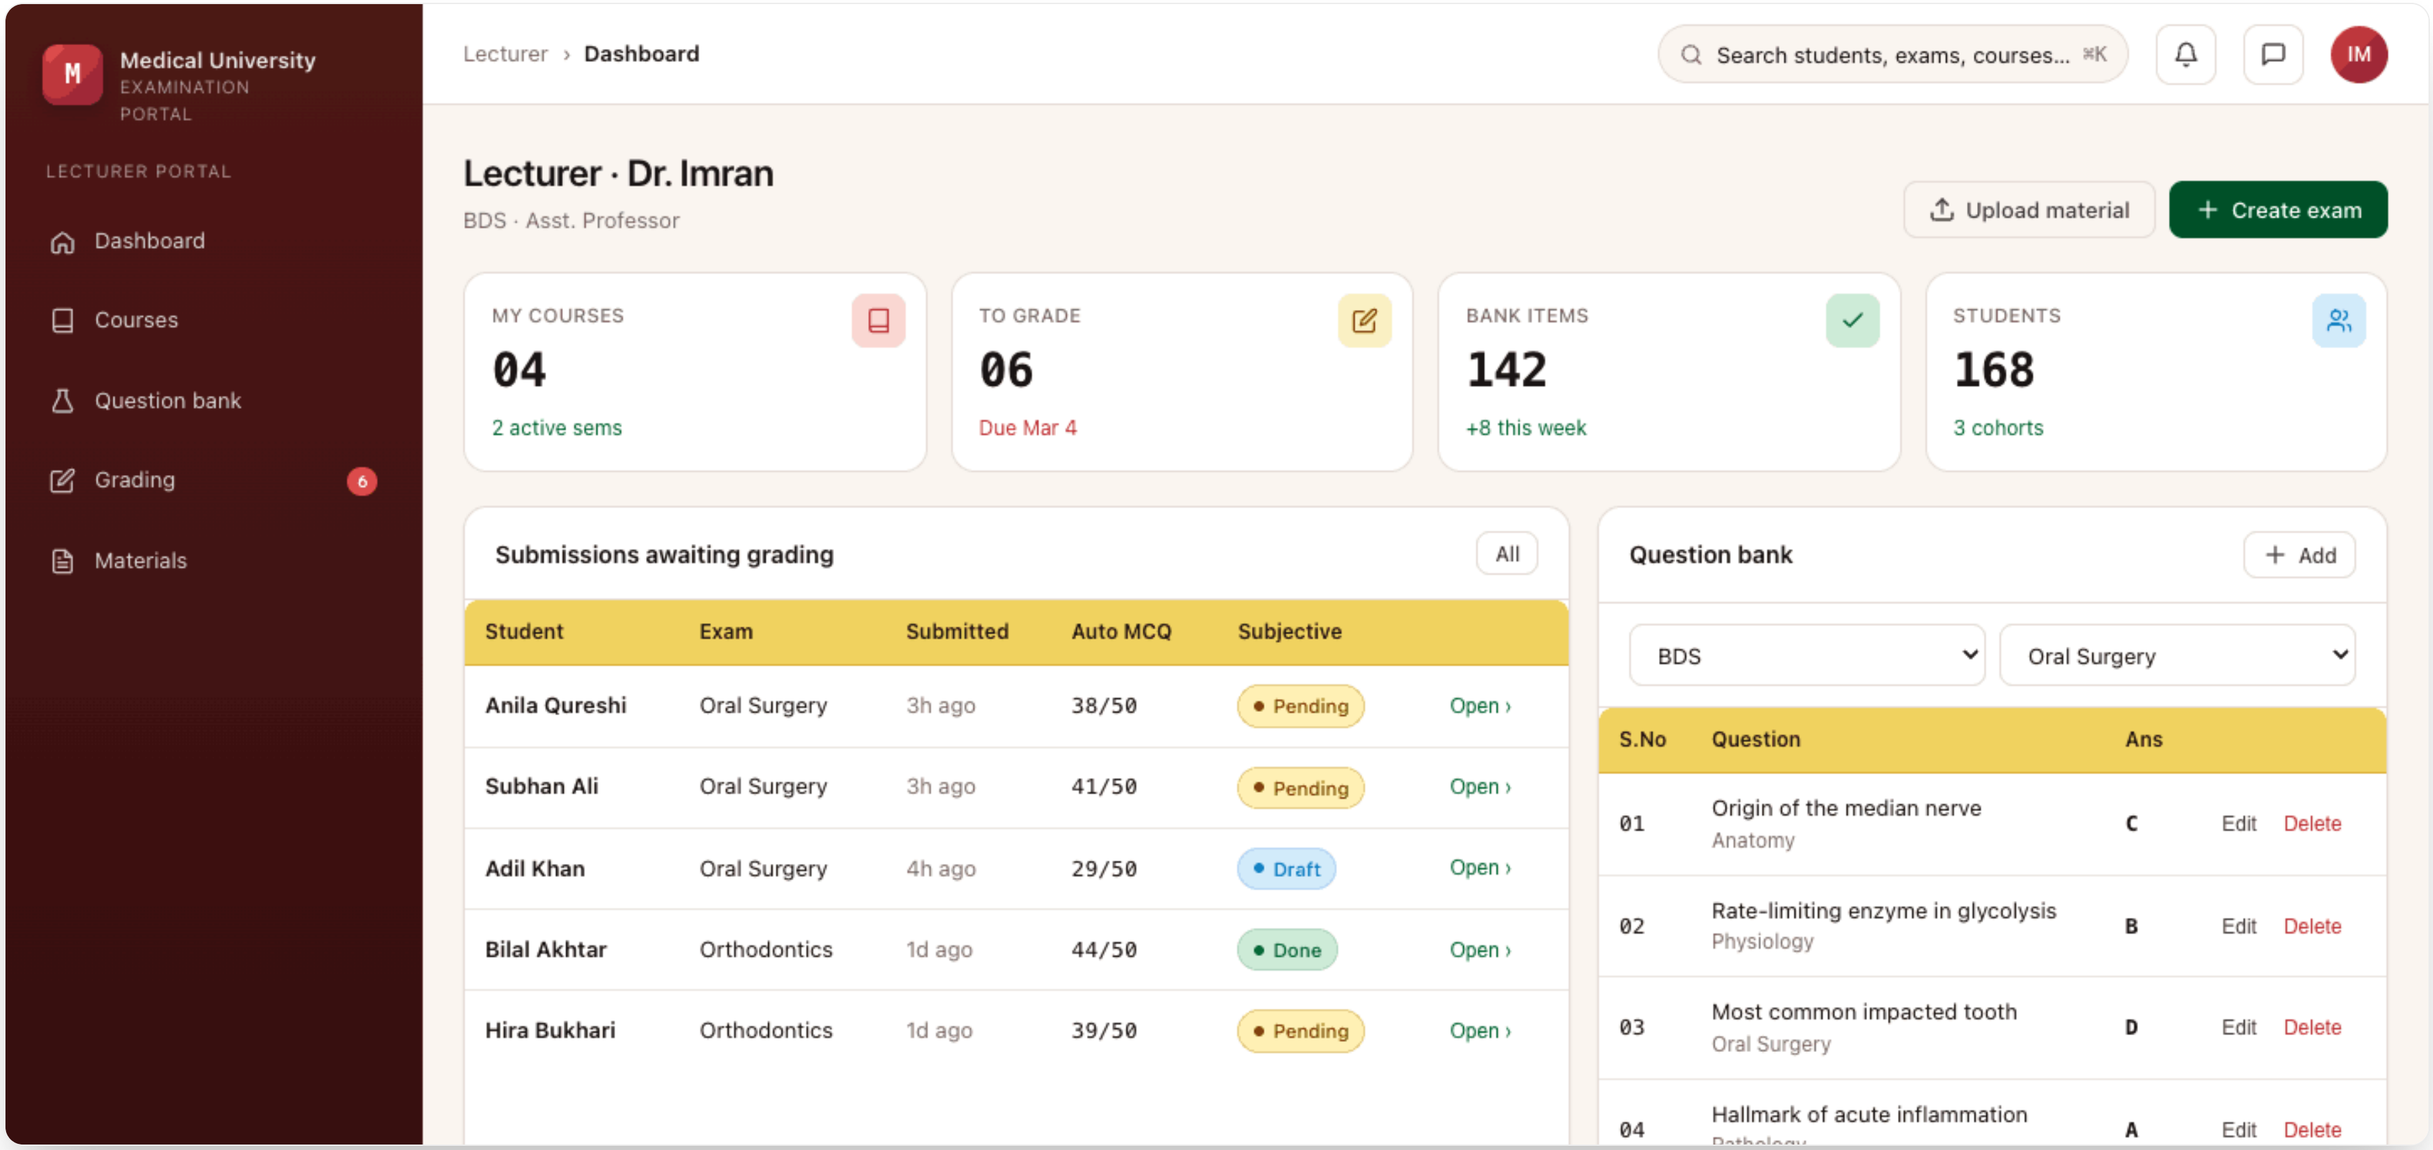

Authoring & grading

Course management, question bank curation, manual grading, and material distribution.

L1 · LECTURER

Dashboard

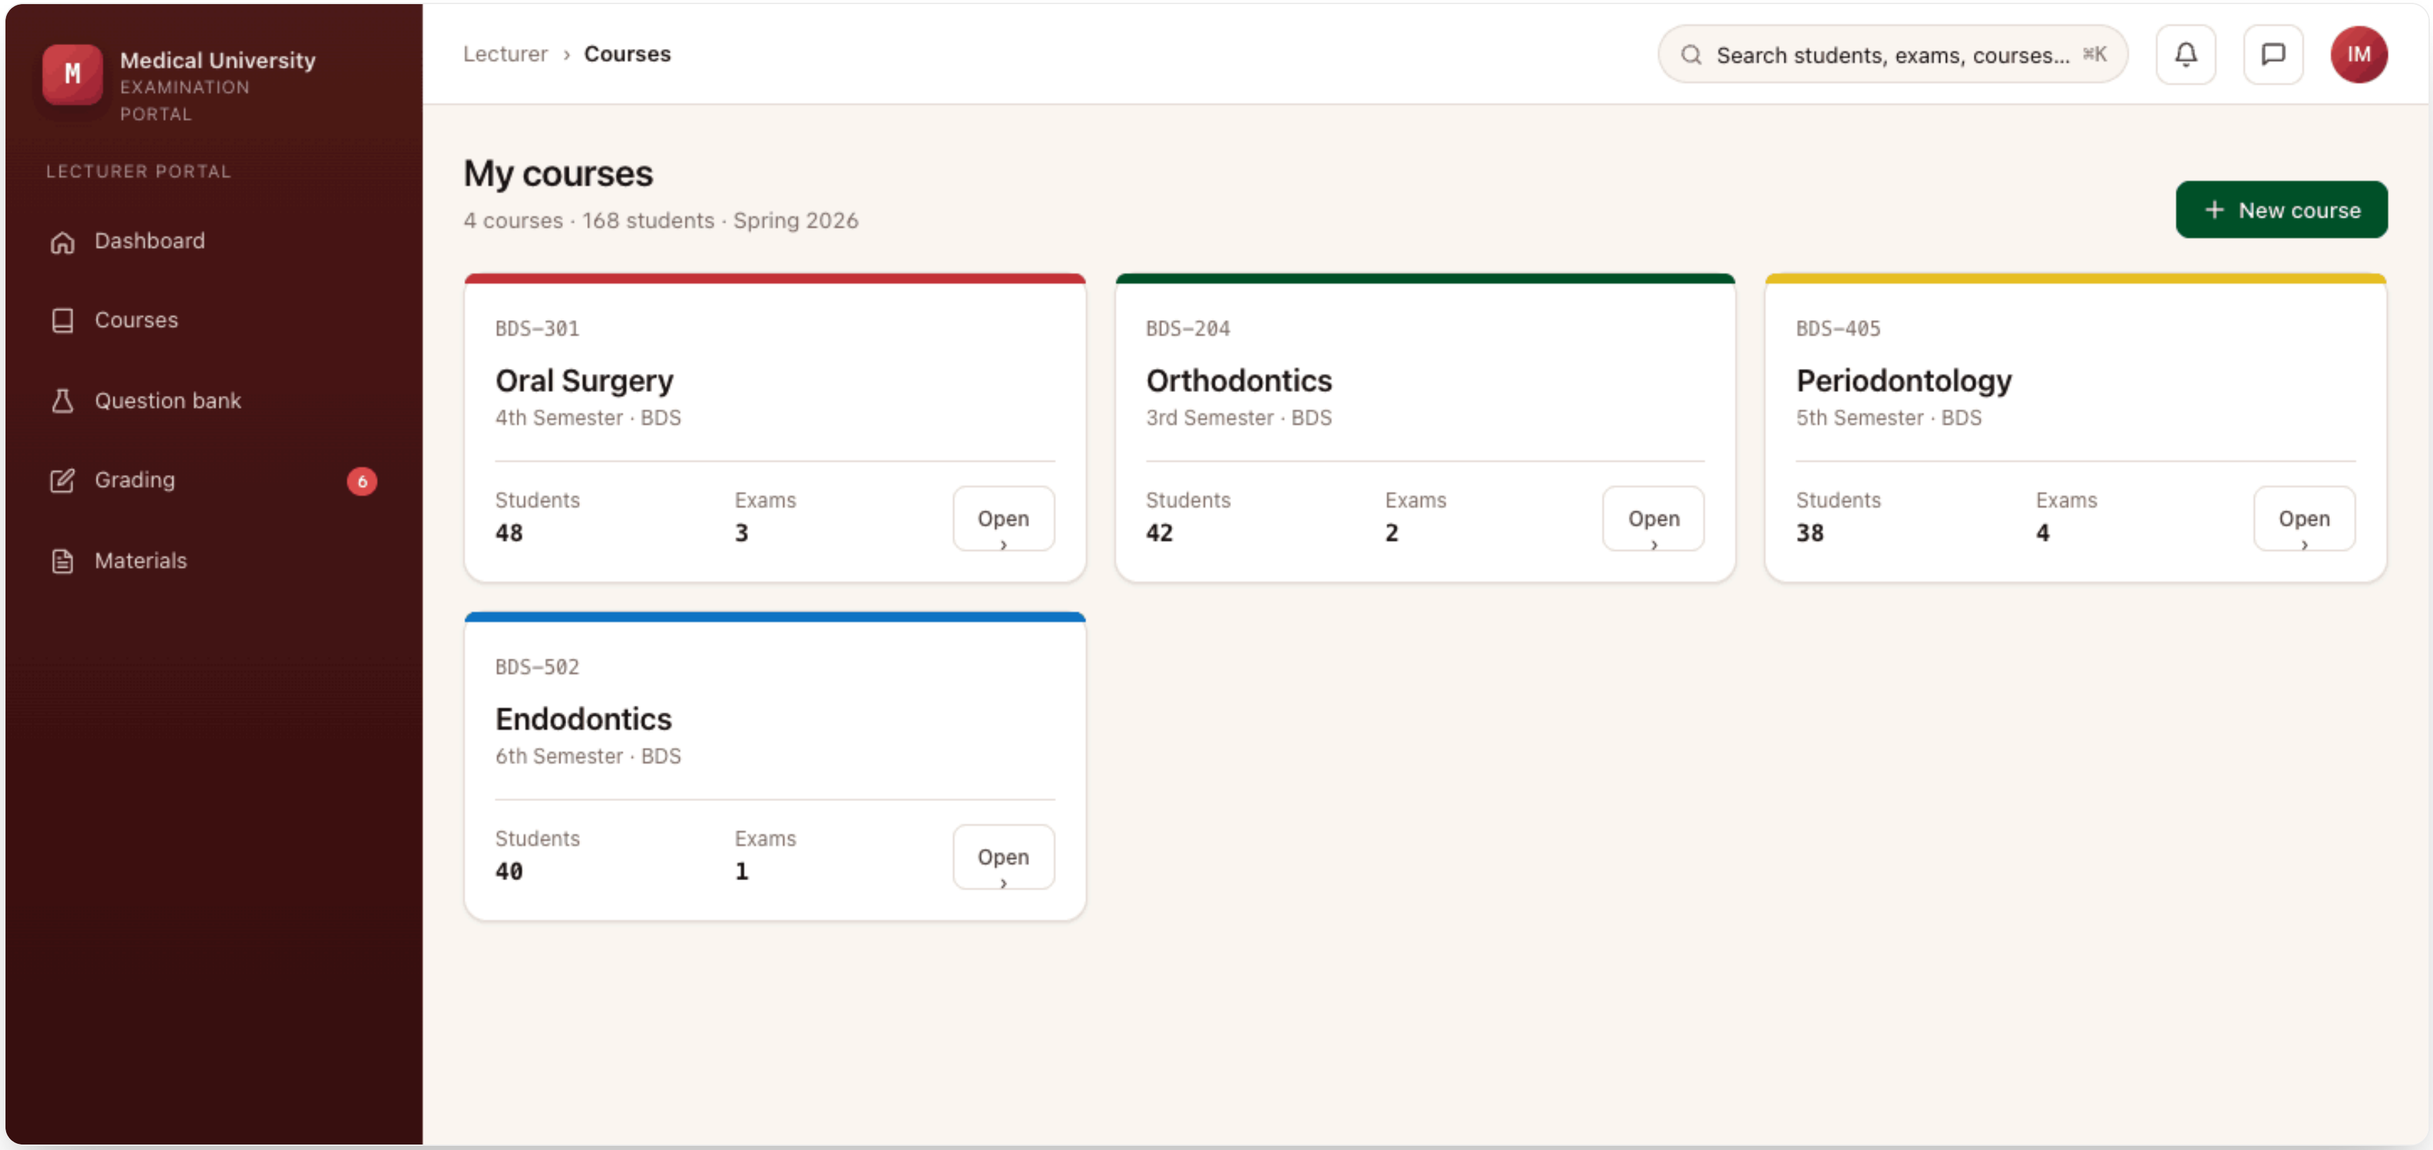

Grading queue, bank summary, current cohorts.

L2 · LECTURER

My courses

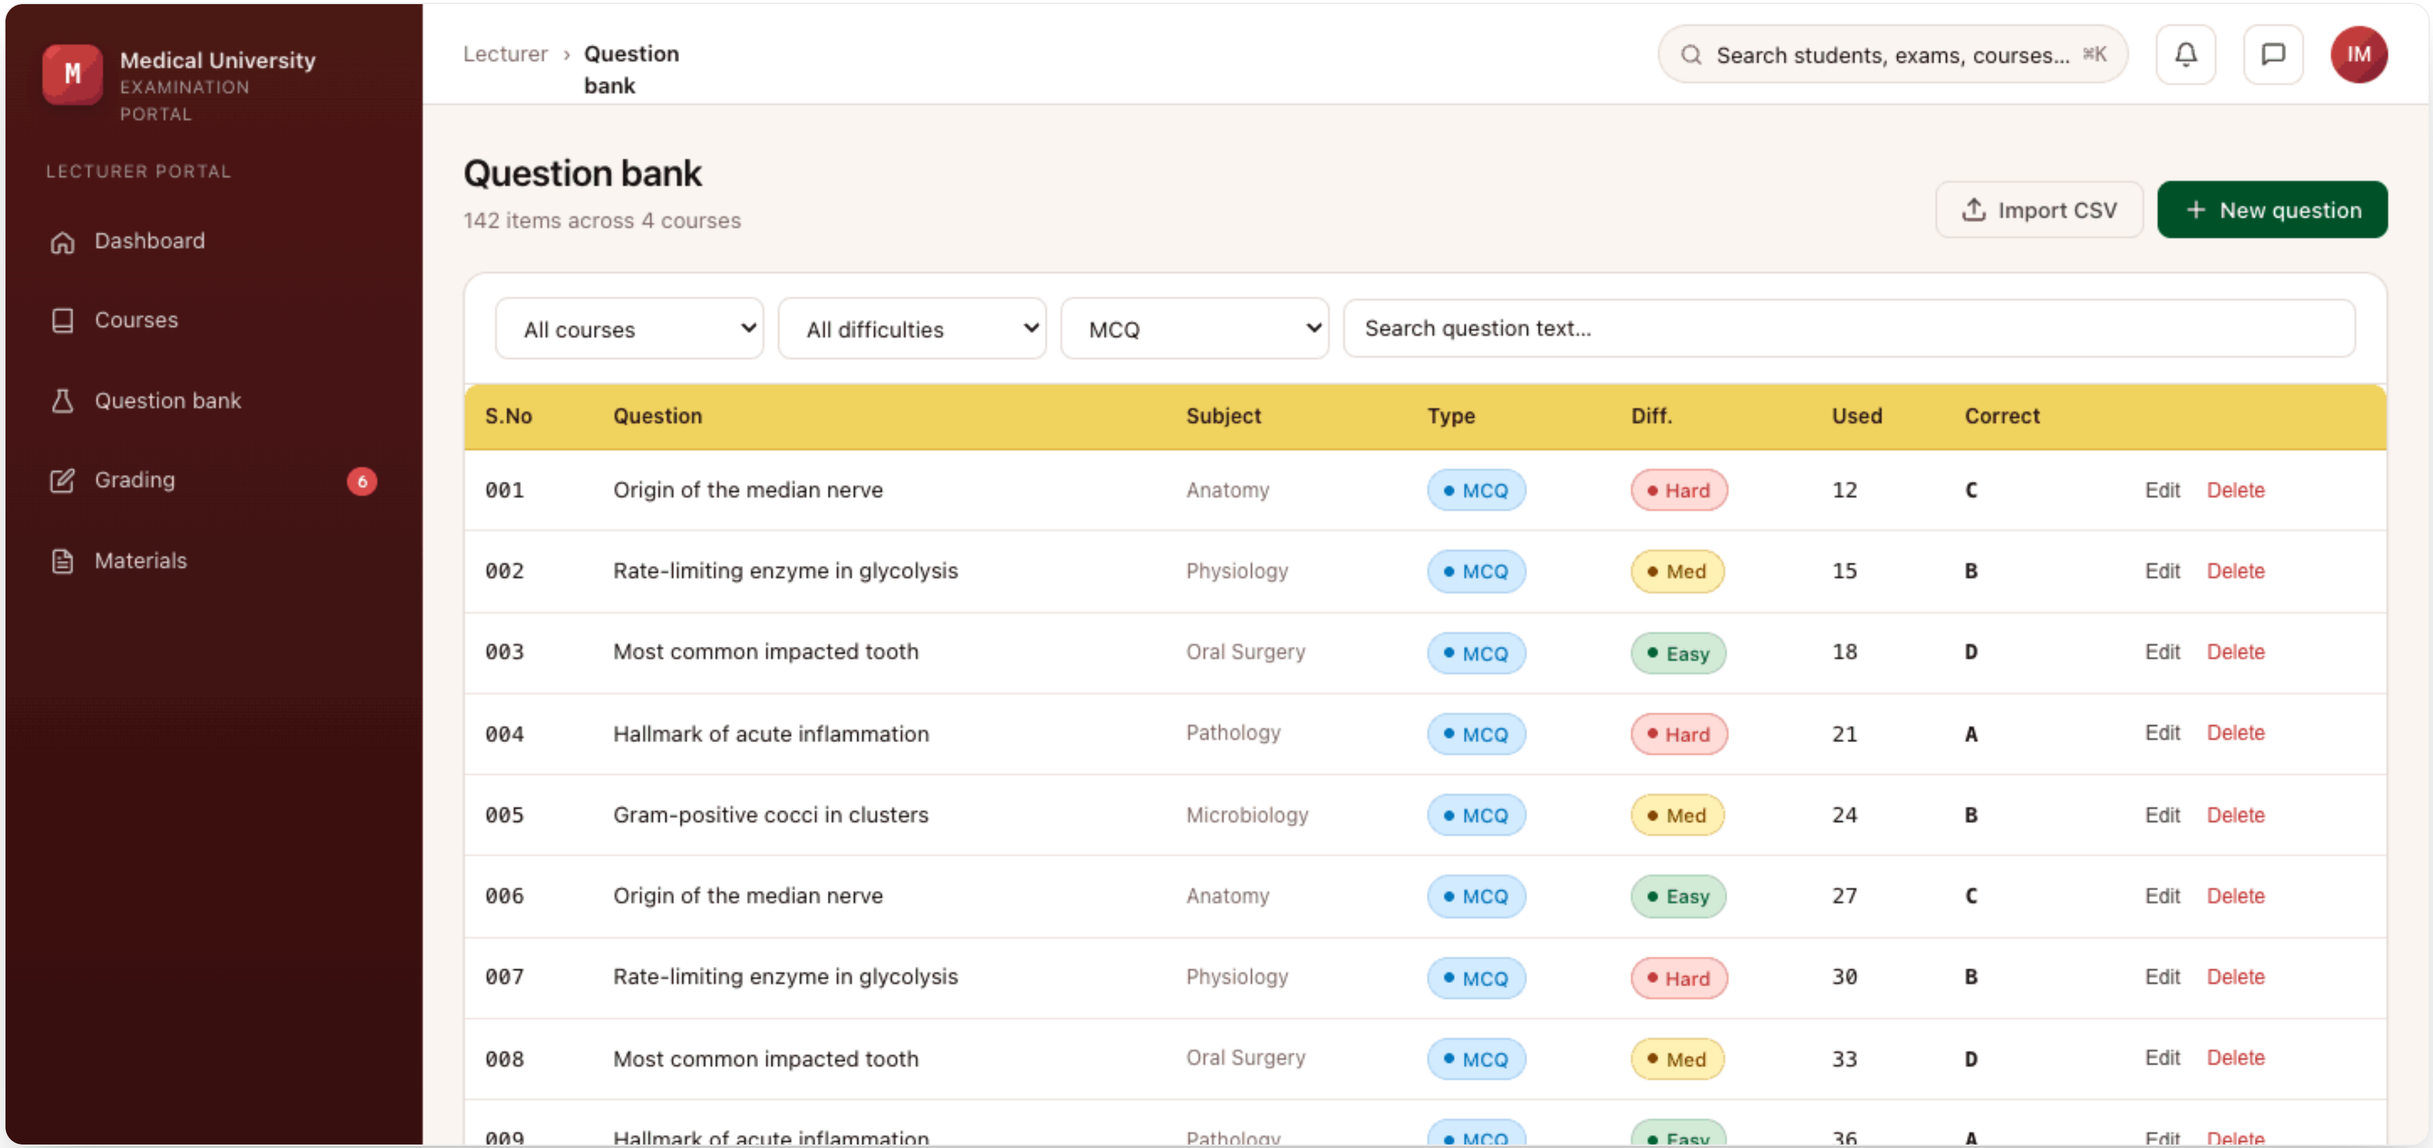

All assigned courses with student counts and exam progress.

L3 · LECTURER

Question bank

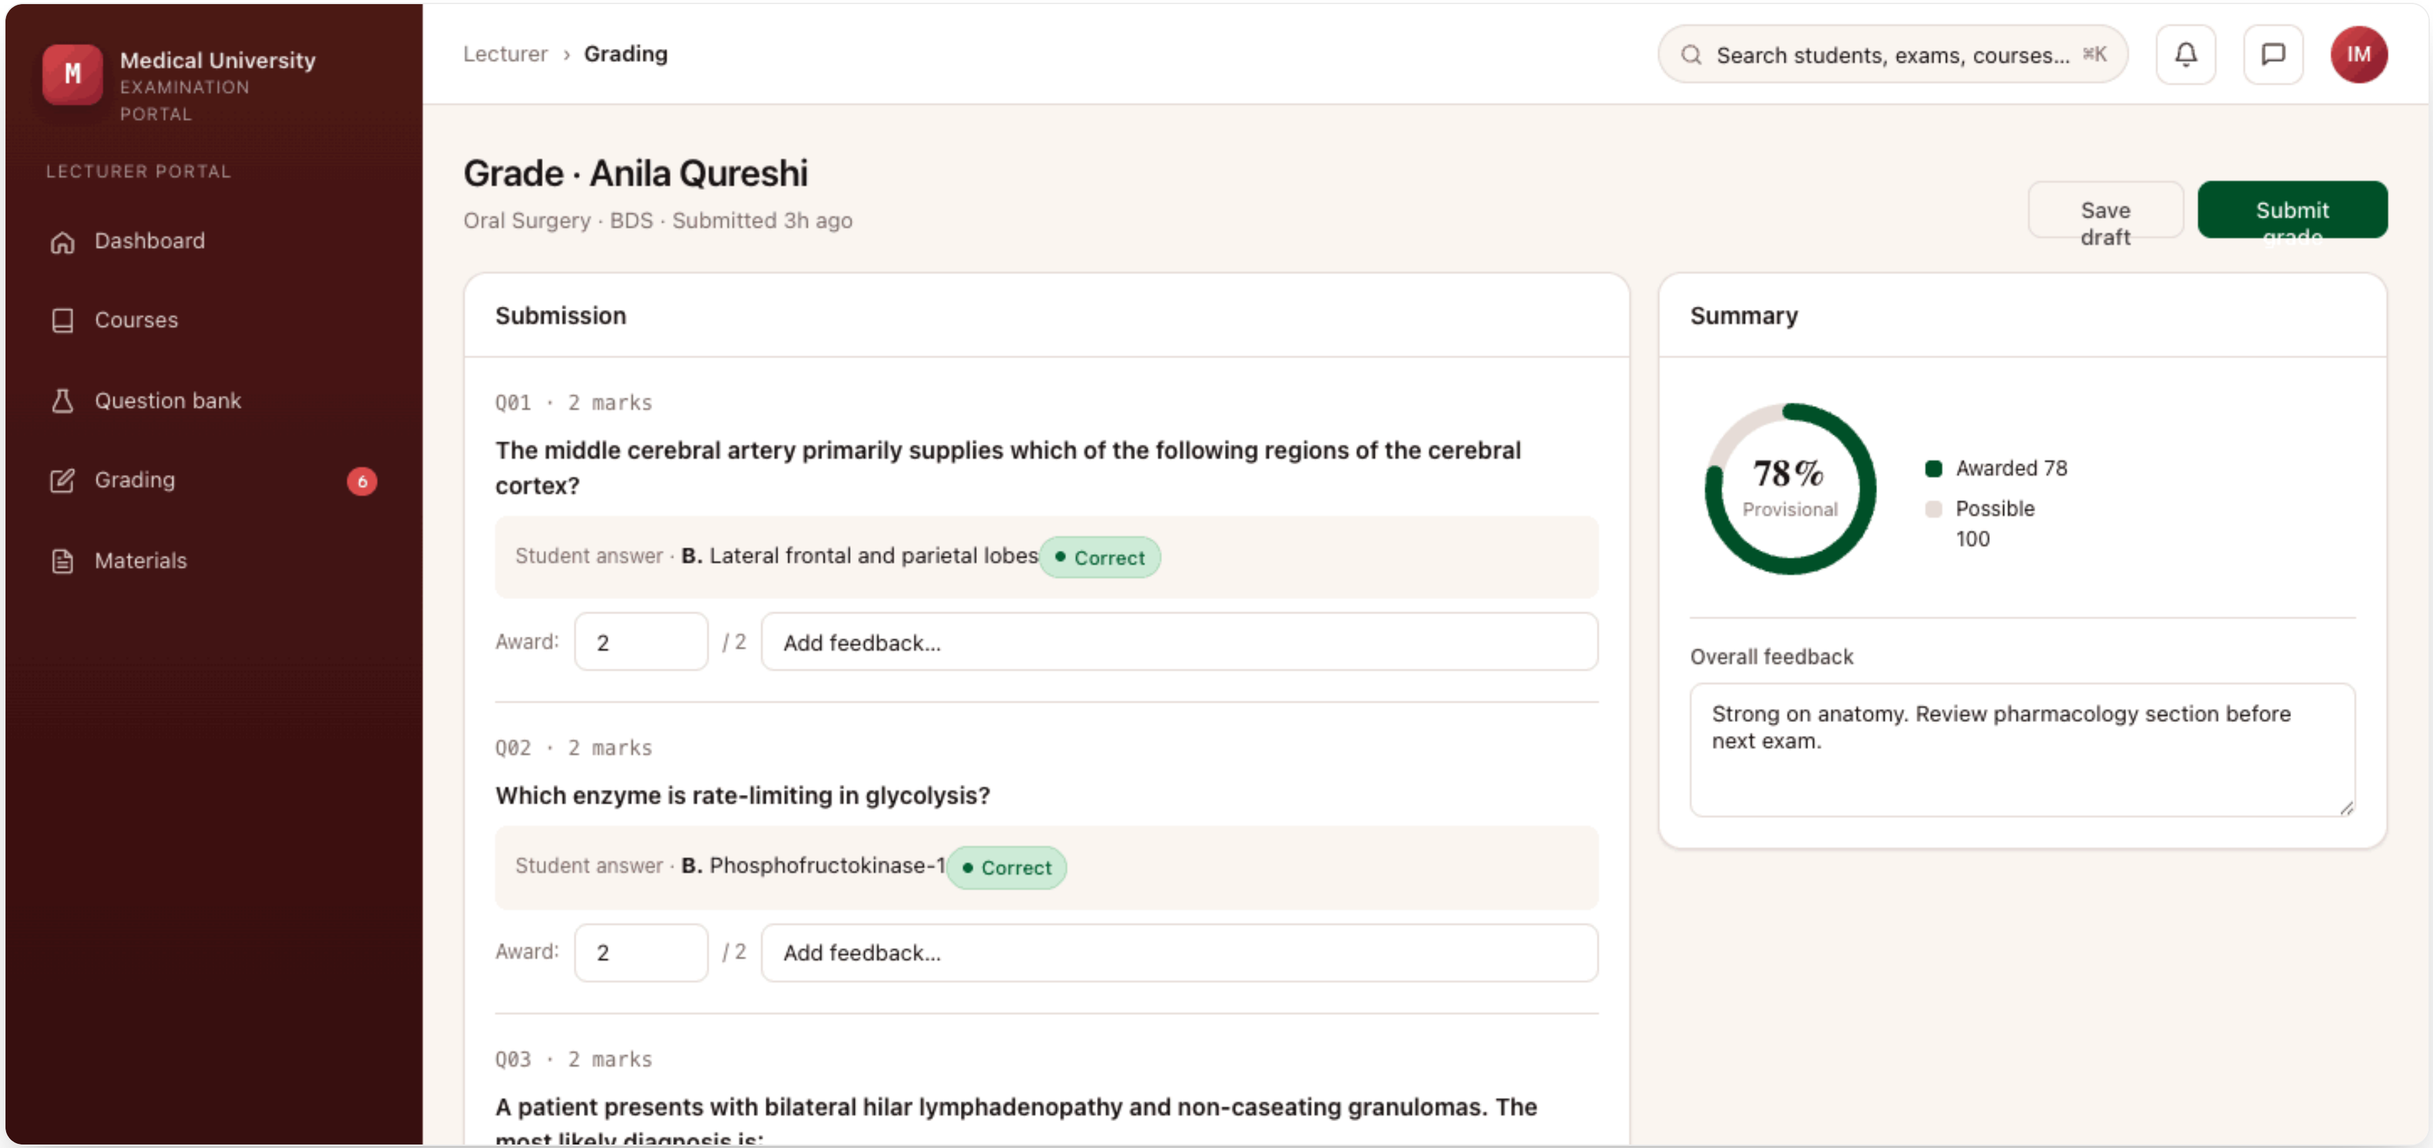

Filter and curate questions by course, type, difficulty.

L4 · LECTURER

Manual grading

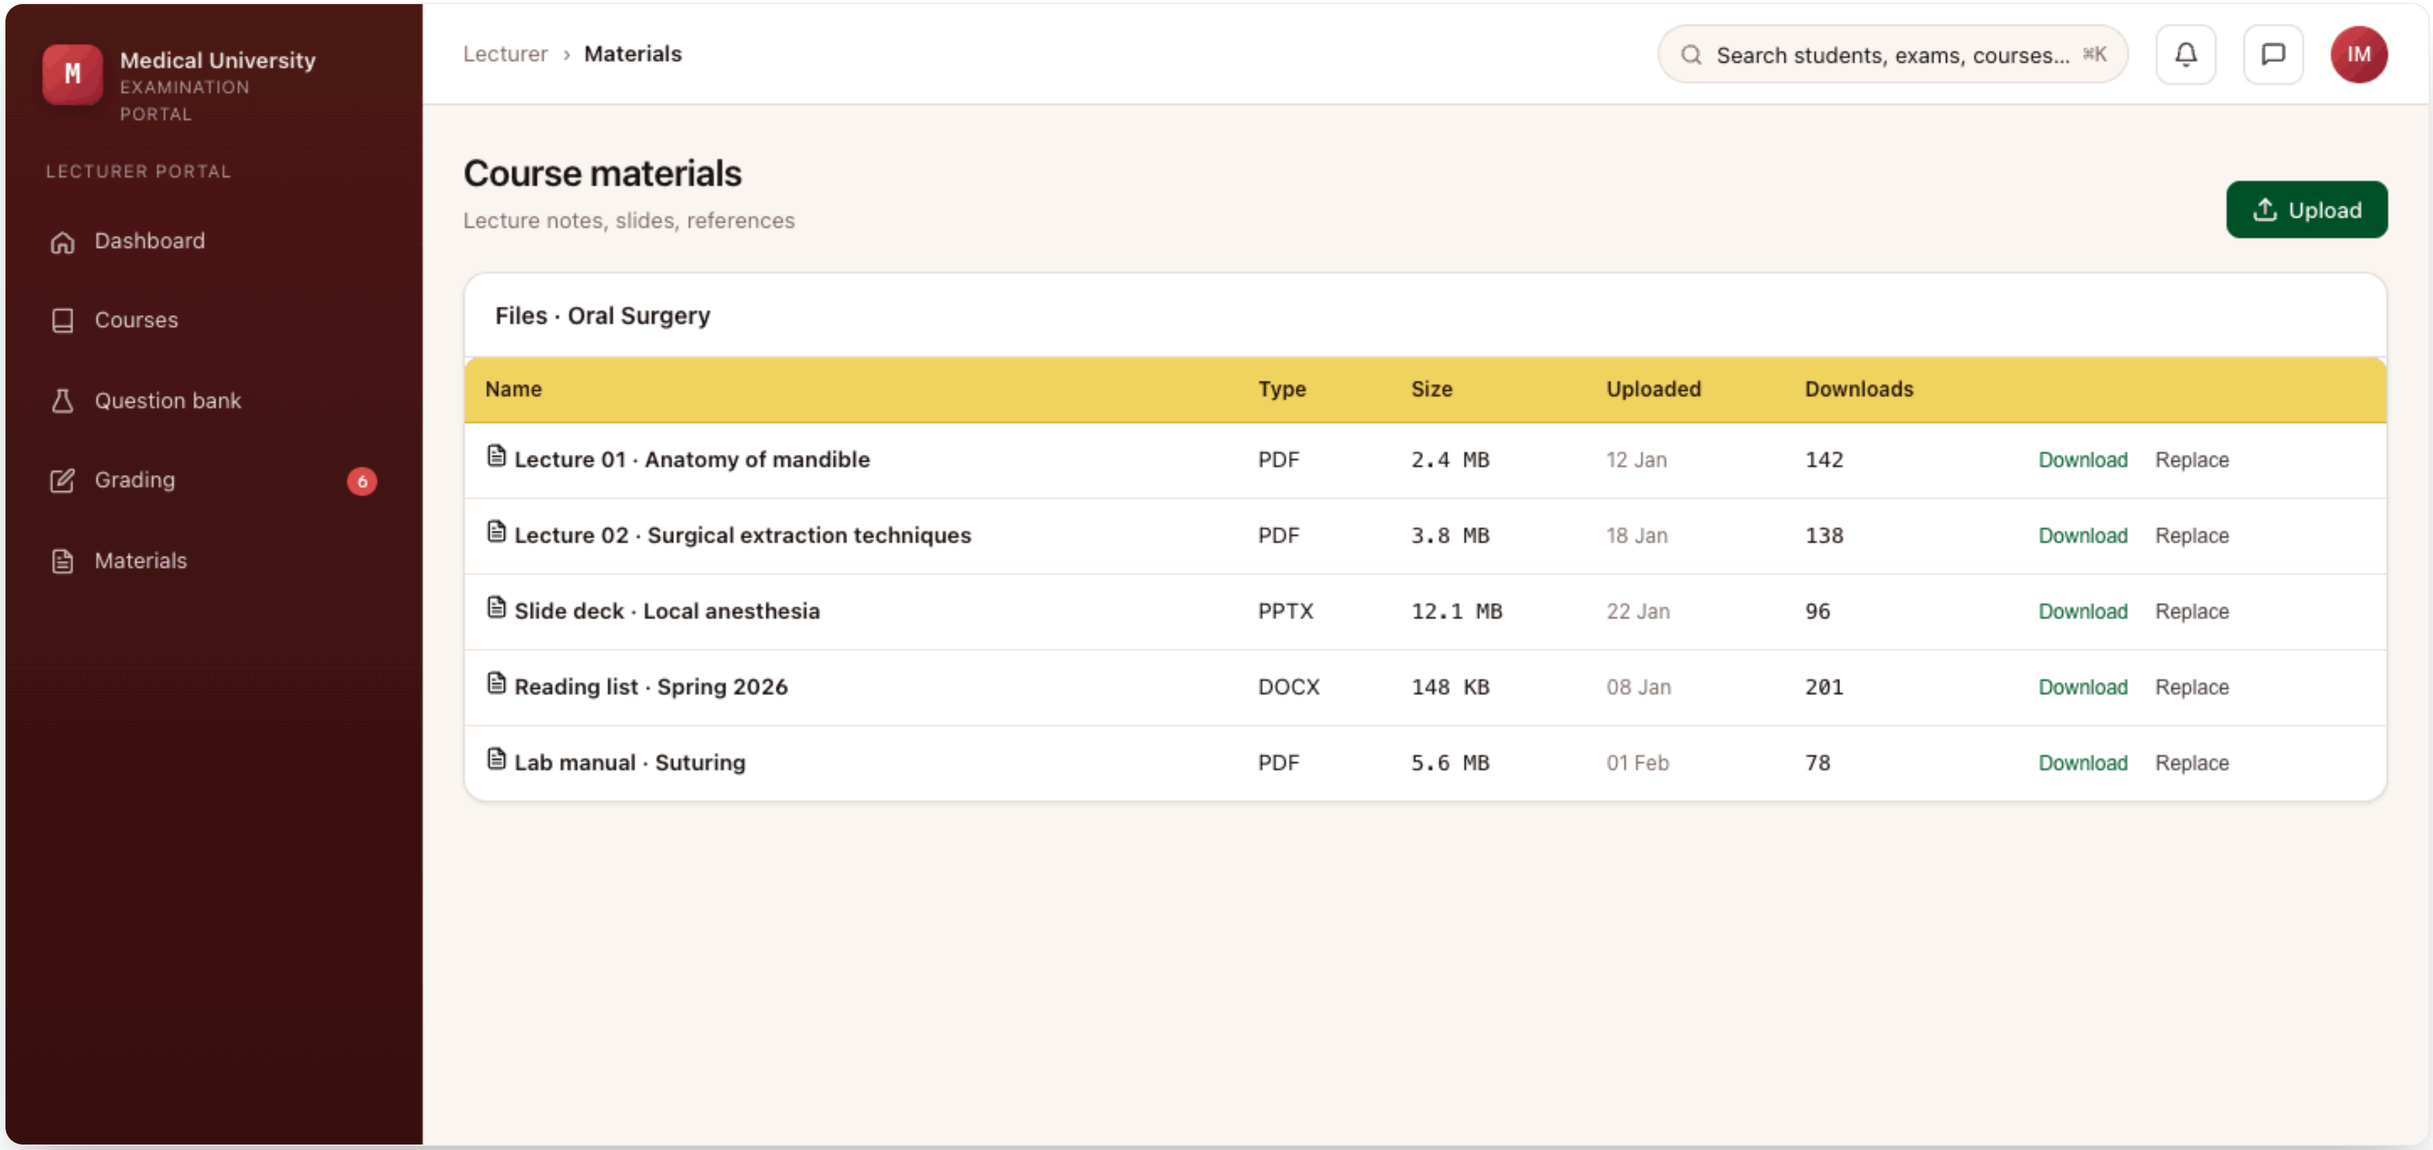

Per-question marks with rubric and written feedback.

L5 · LECTURER

Course materials

Lecture notes, slide decks, reading lists.

03

ROLE · EXAMINER DEPARTMENT

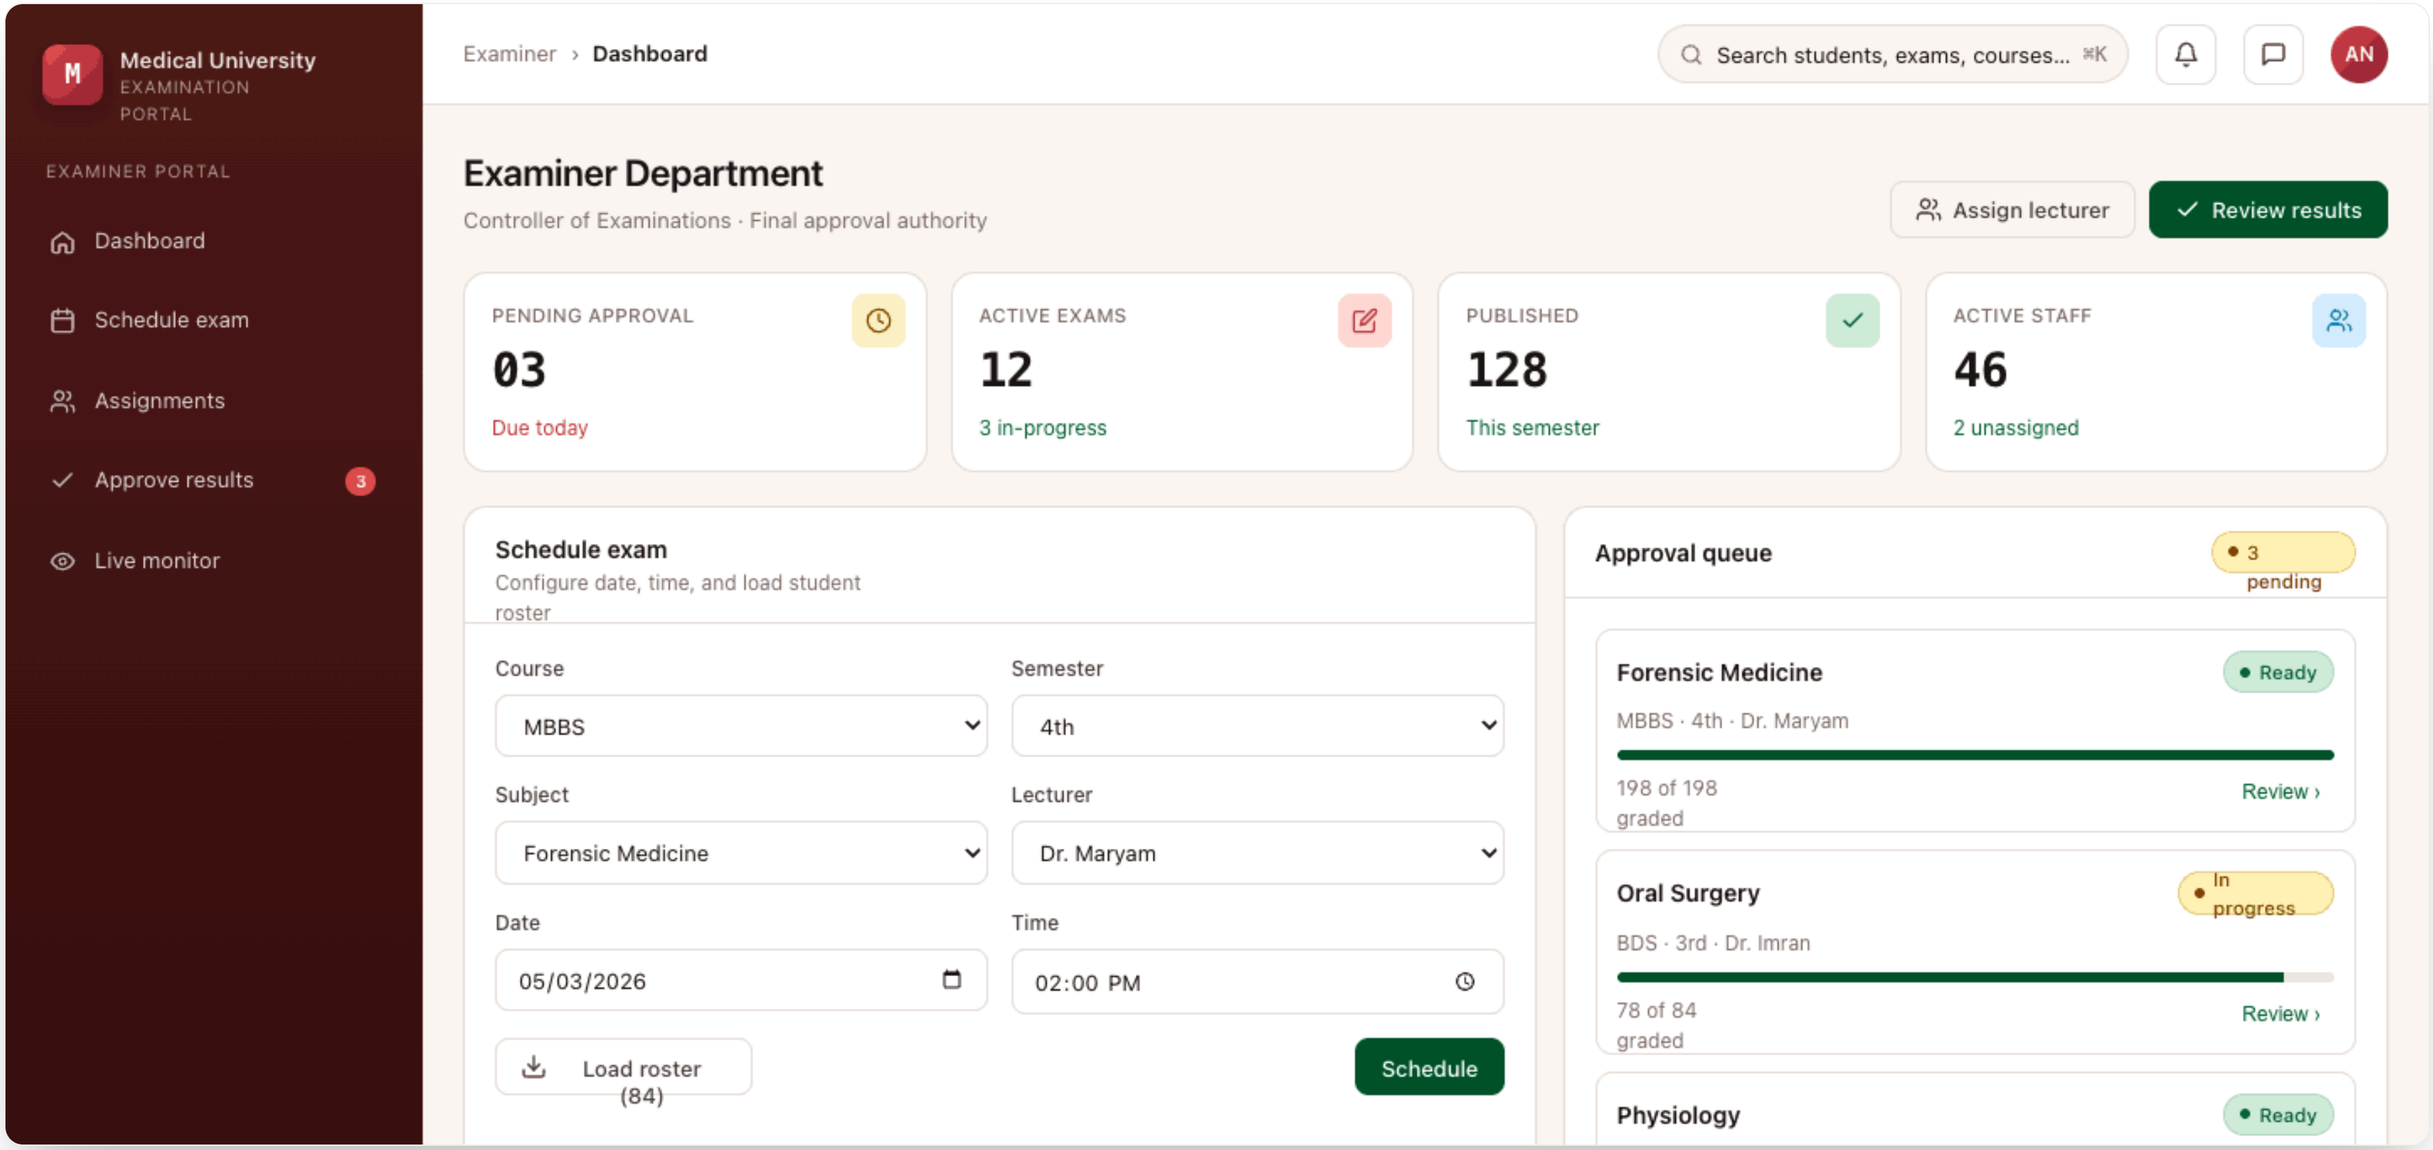

Schedule & approve

Exam configuration, lecturer assignment,
live monitoring, and final result approval.

E1 · EXAMINER

Dashboard

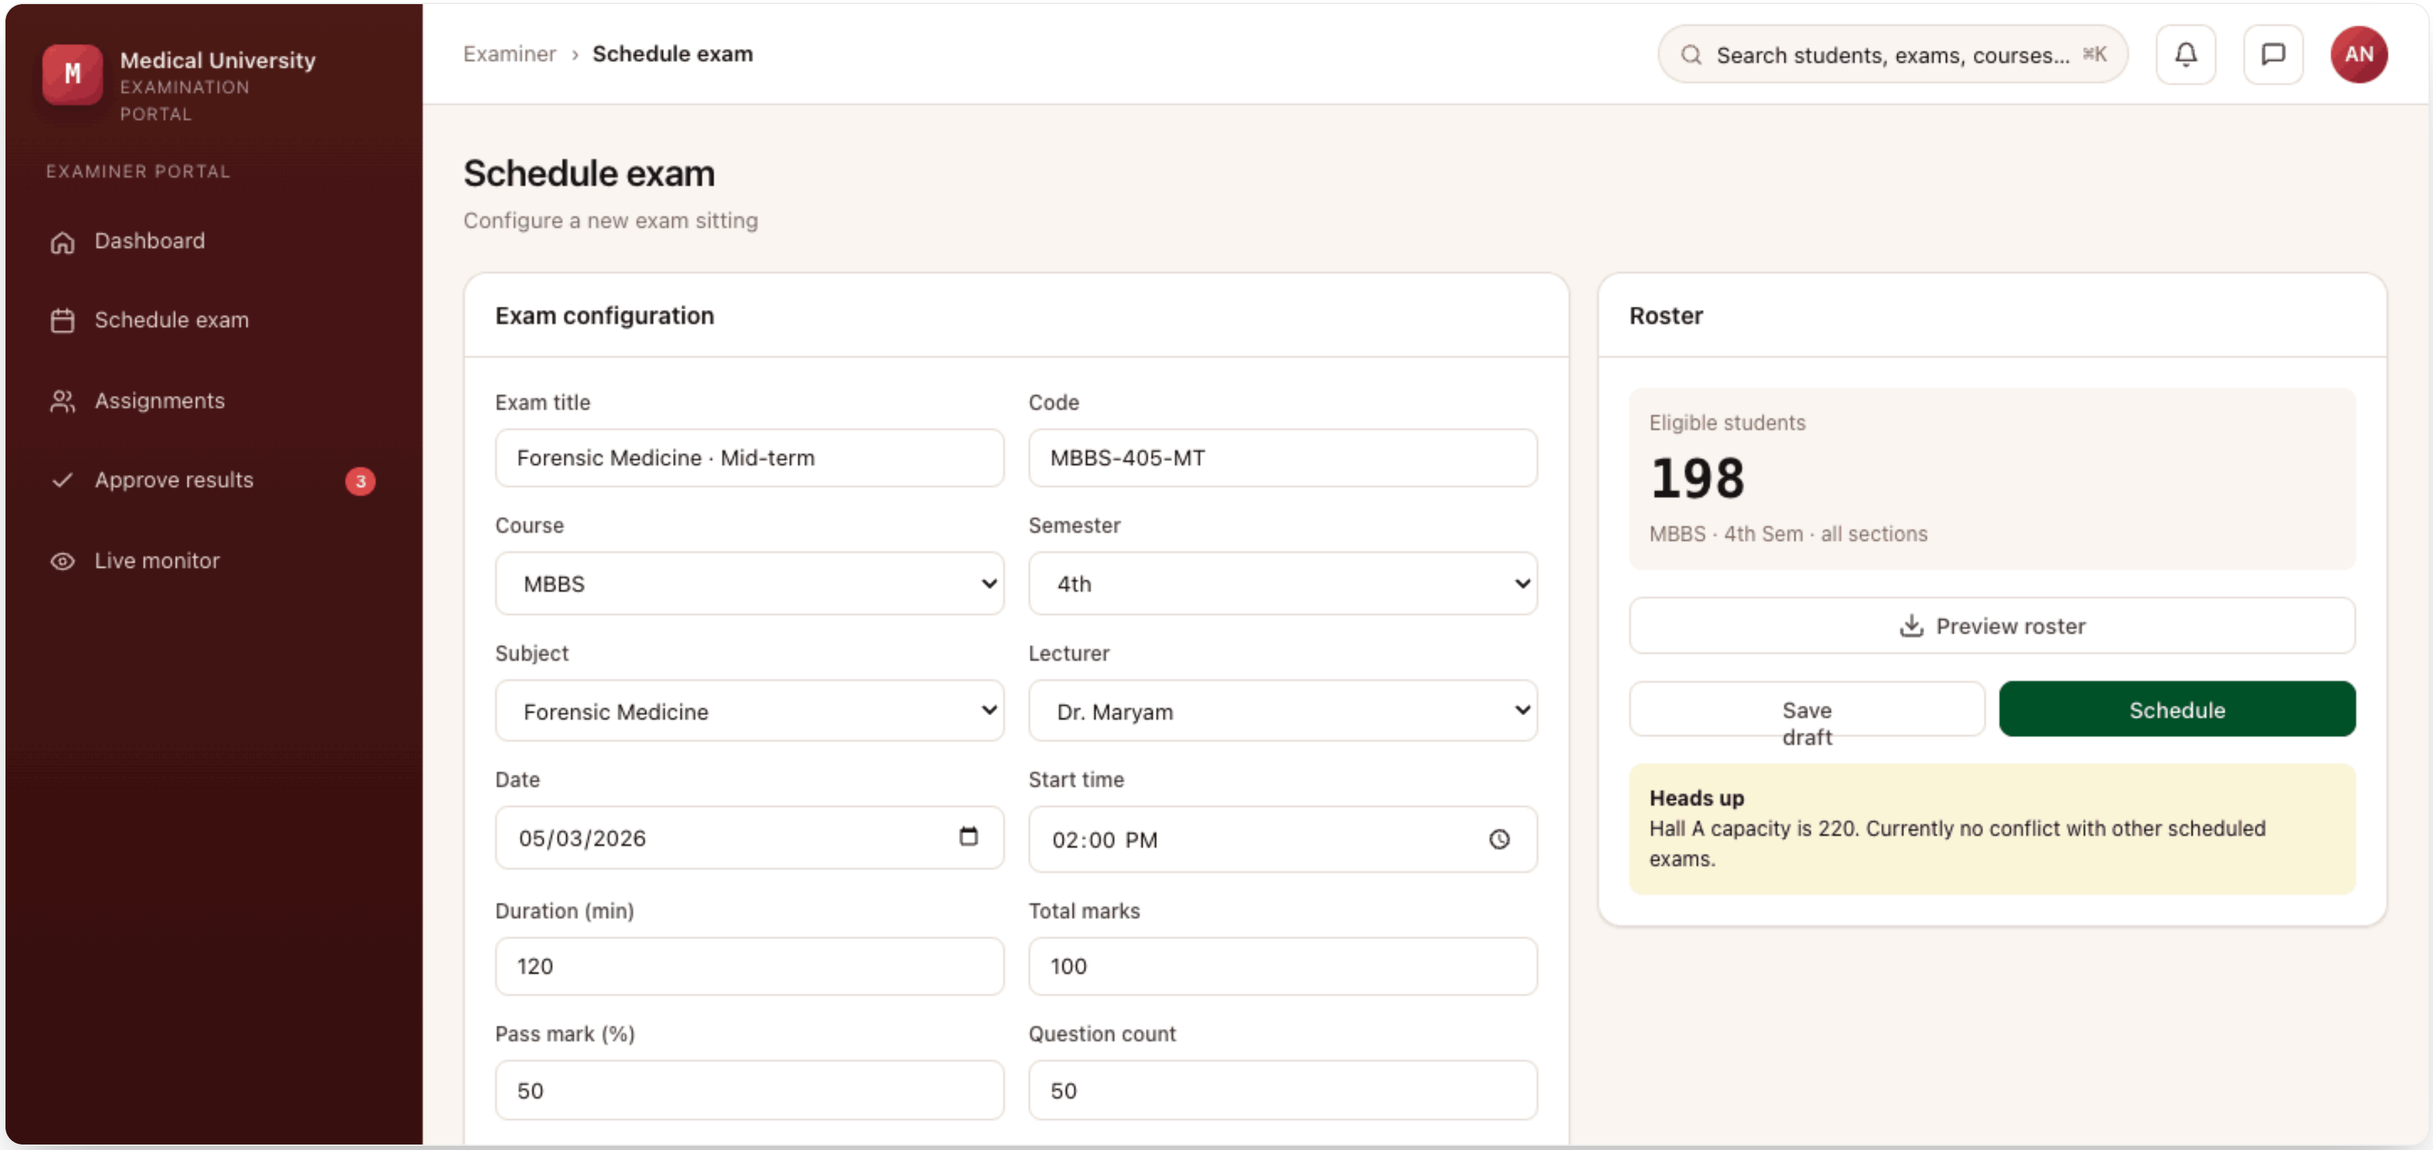

Pending approvals, upcoming sittings, staff workload.

E2 · EXAMINER

Schedule exam

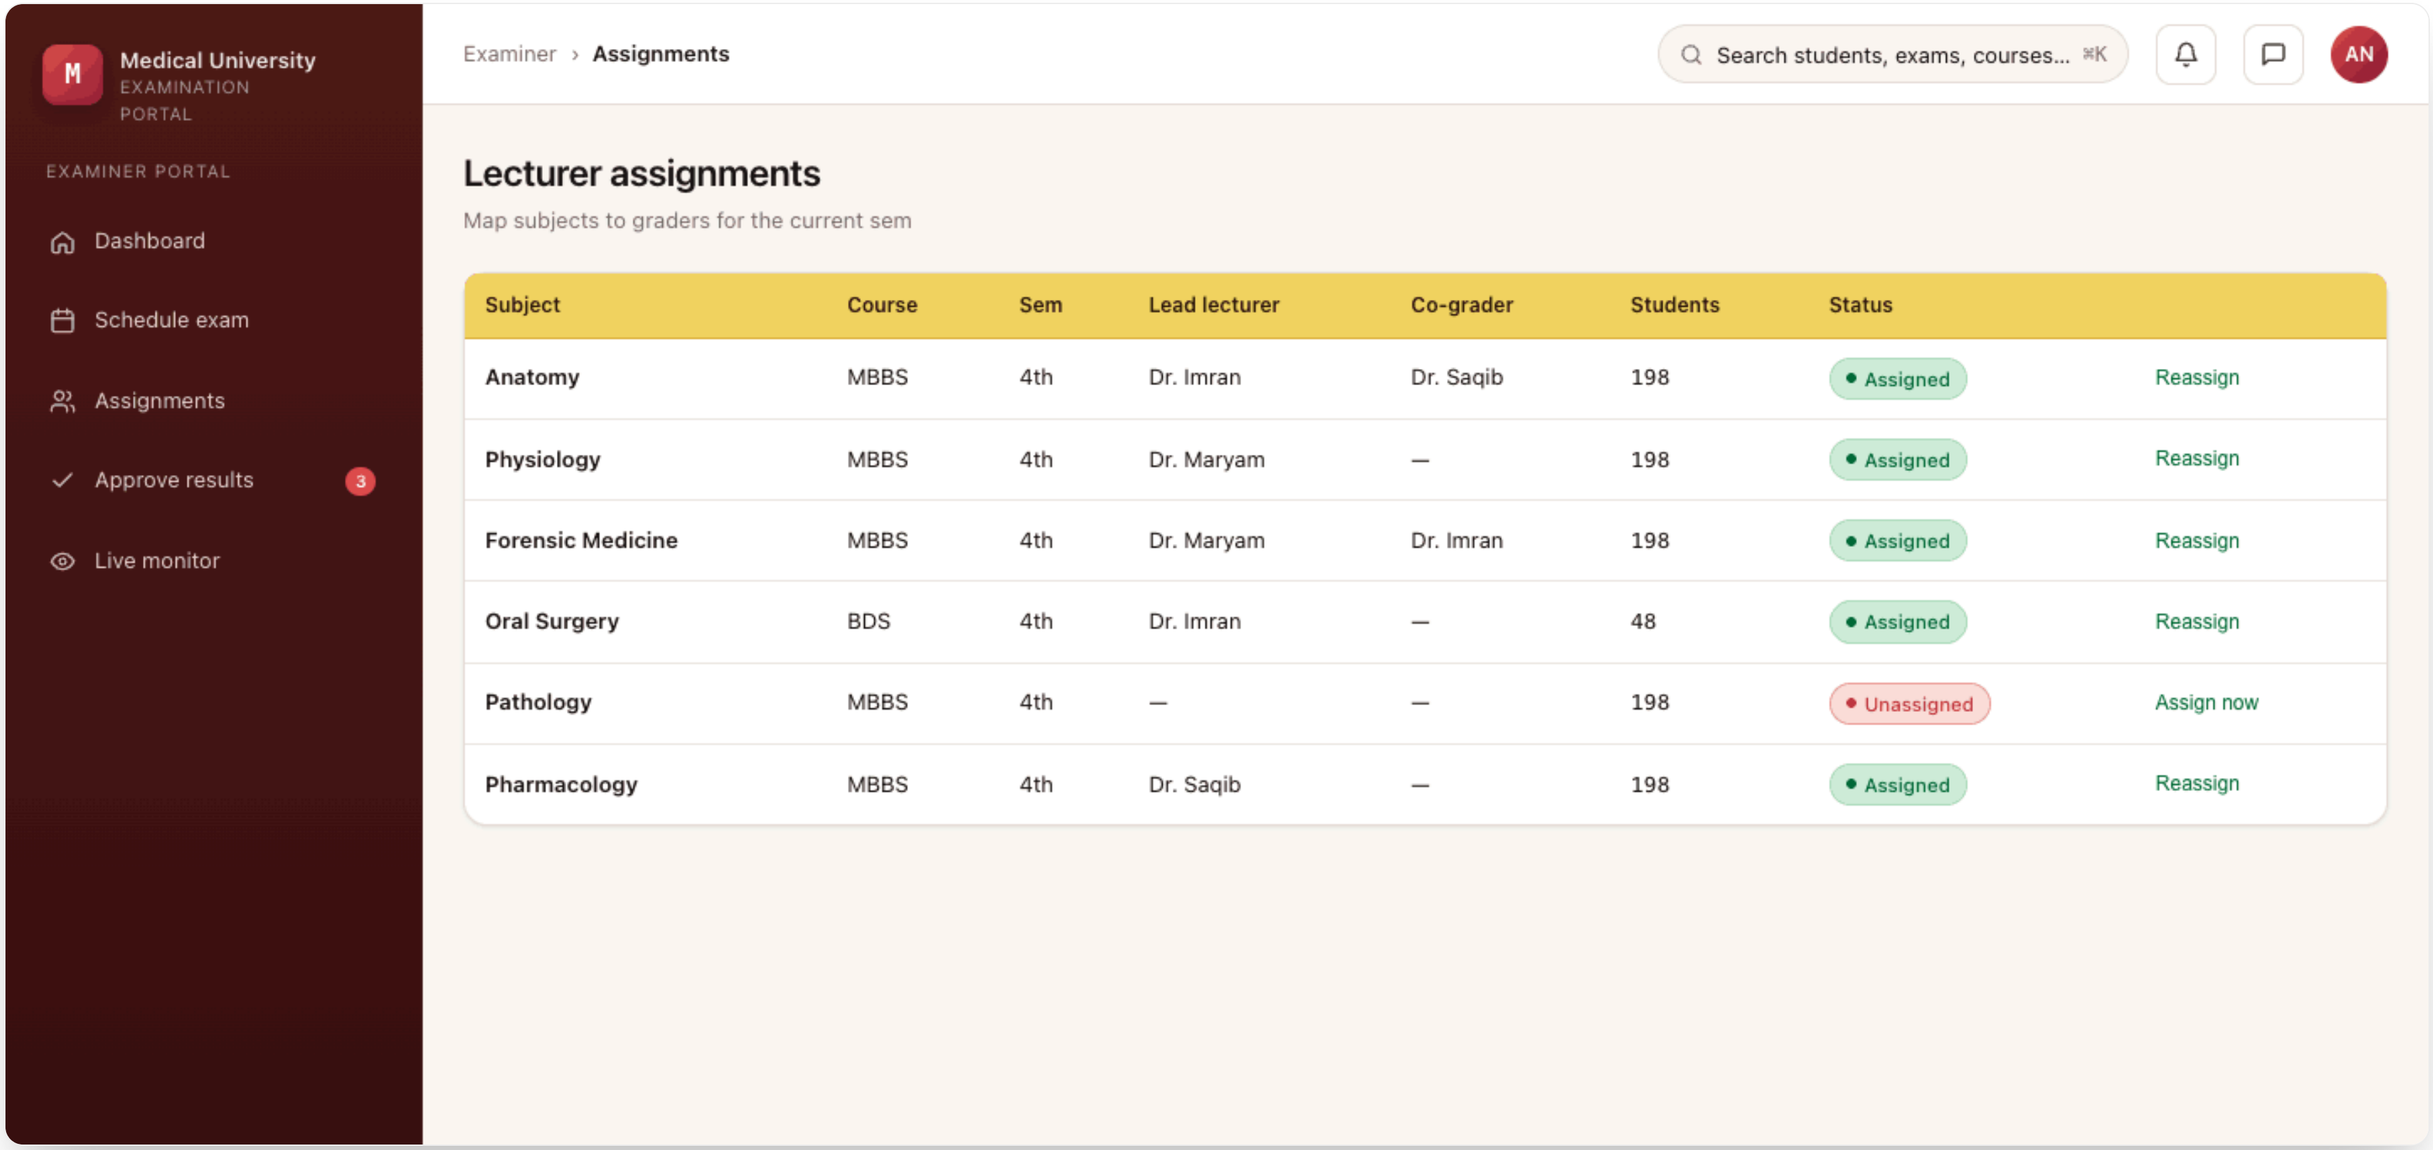

Subject, lecturer, date, marks, anti-cheat options, roster.

E3 · EXAMINER

Lecturer assignments

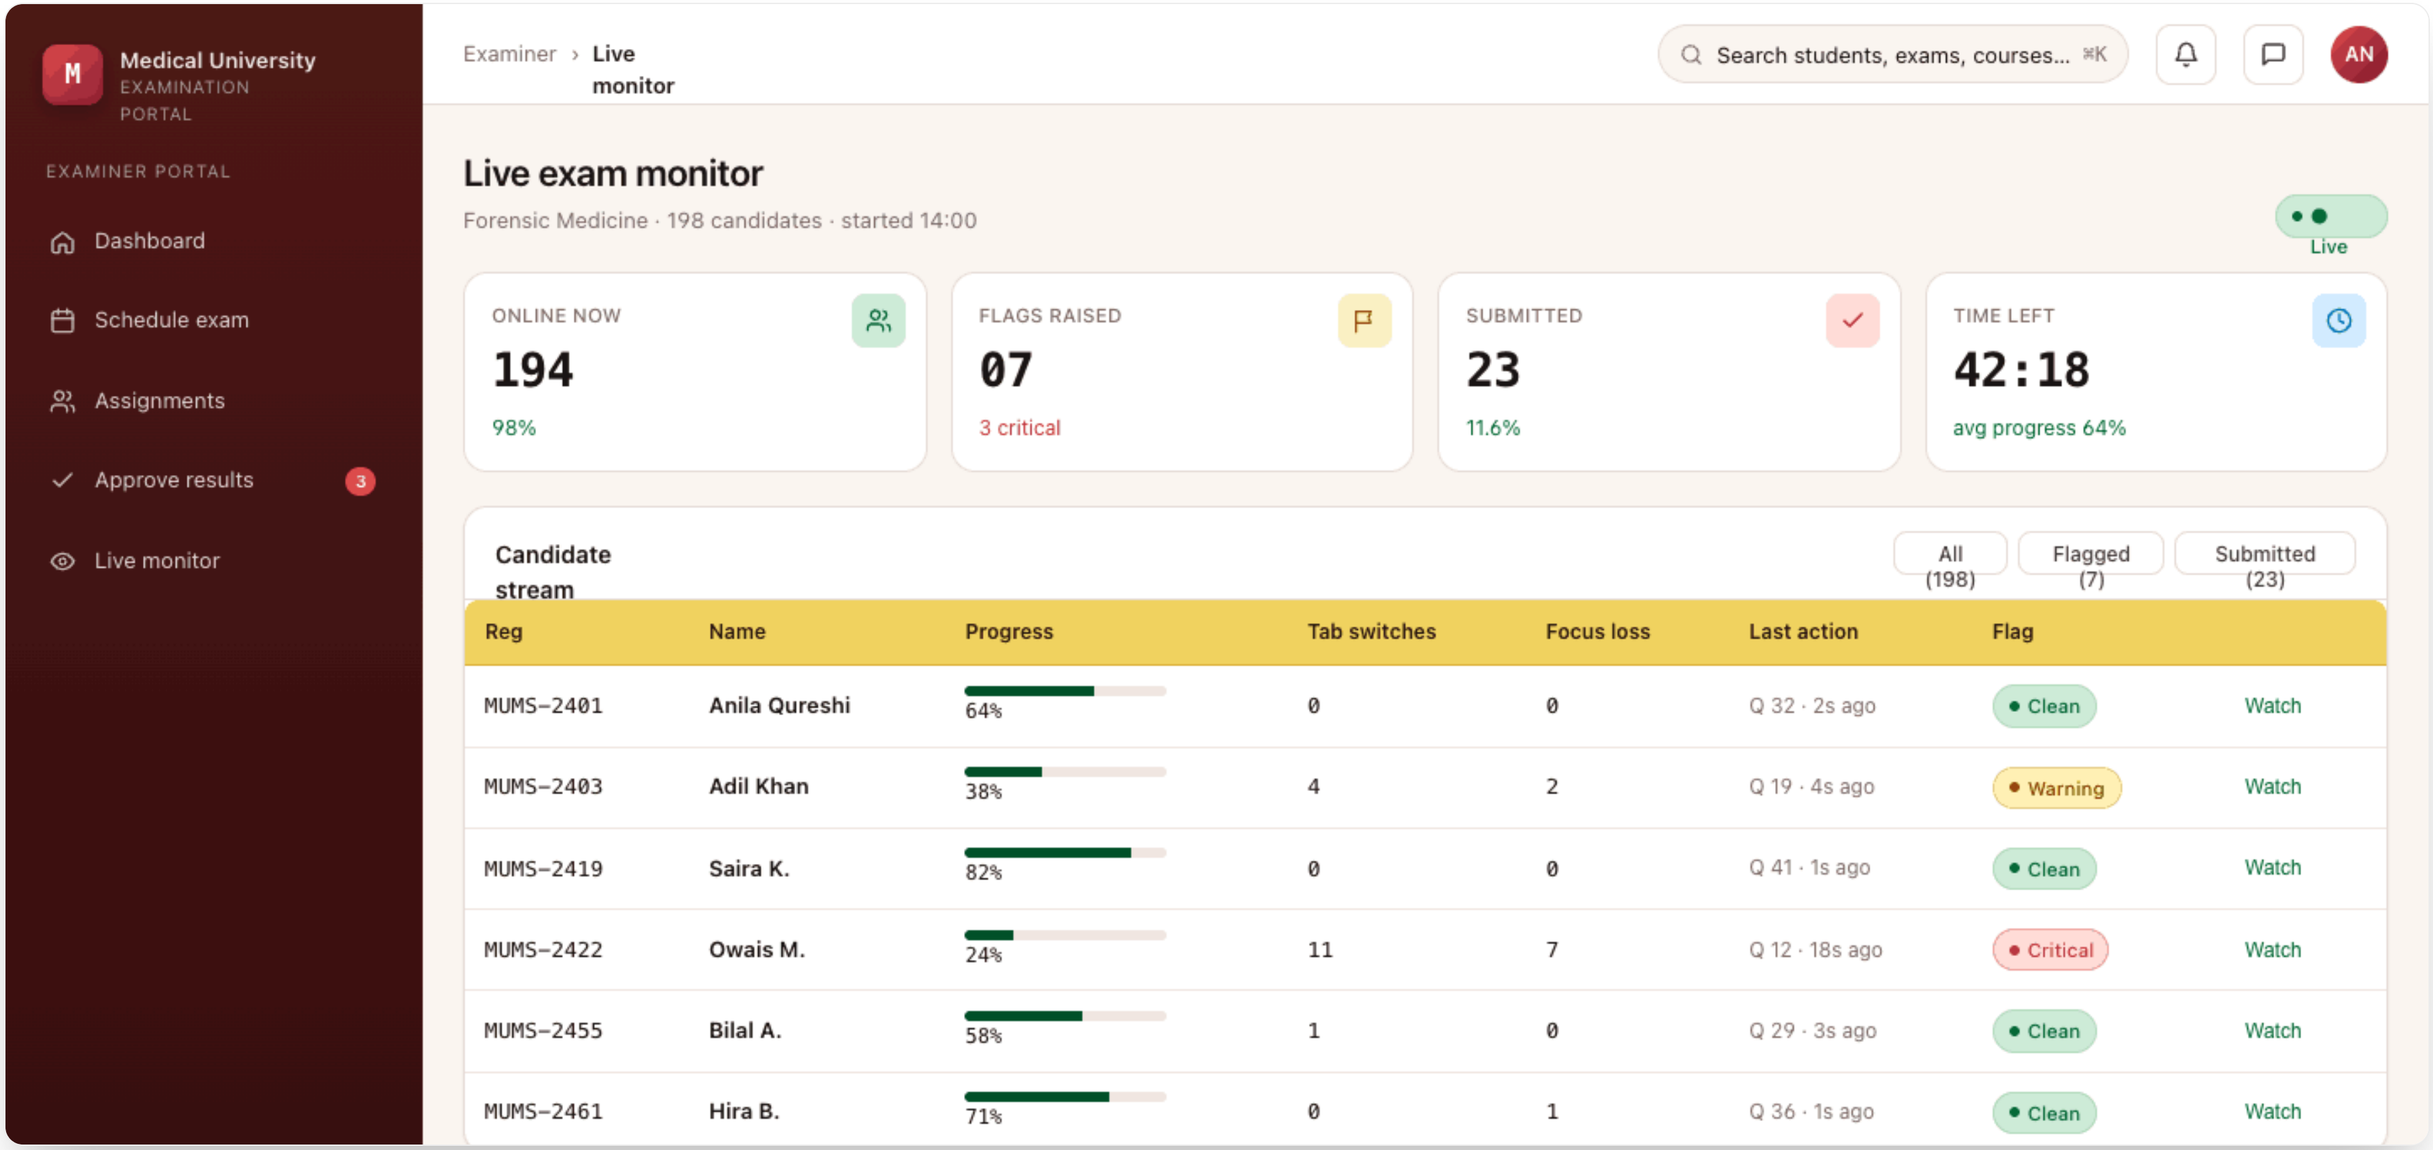

Map subjects to lead and co-graders.

E4 · EXAMINER

Live monitor

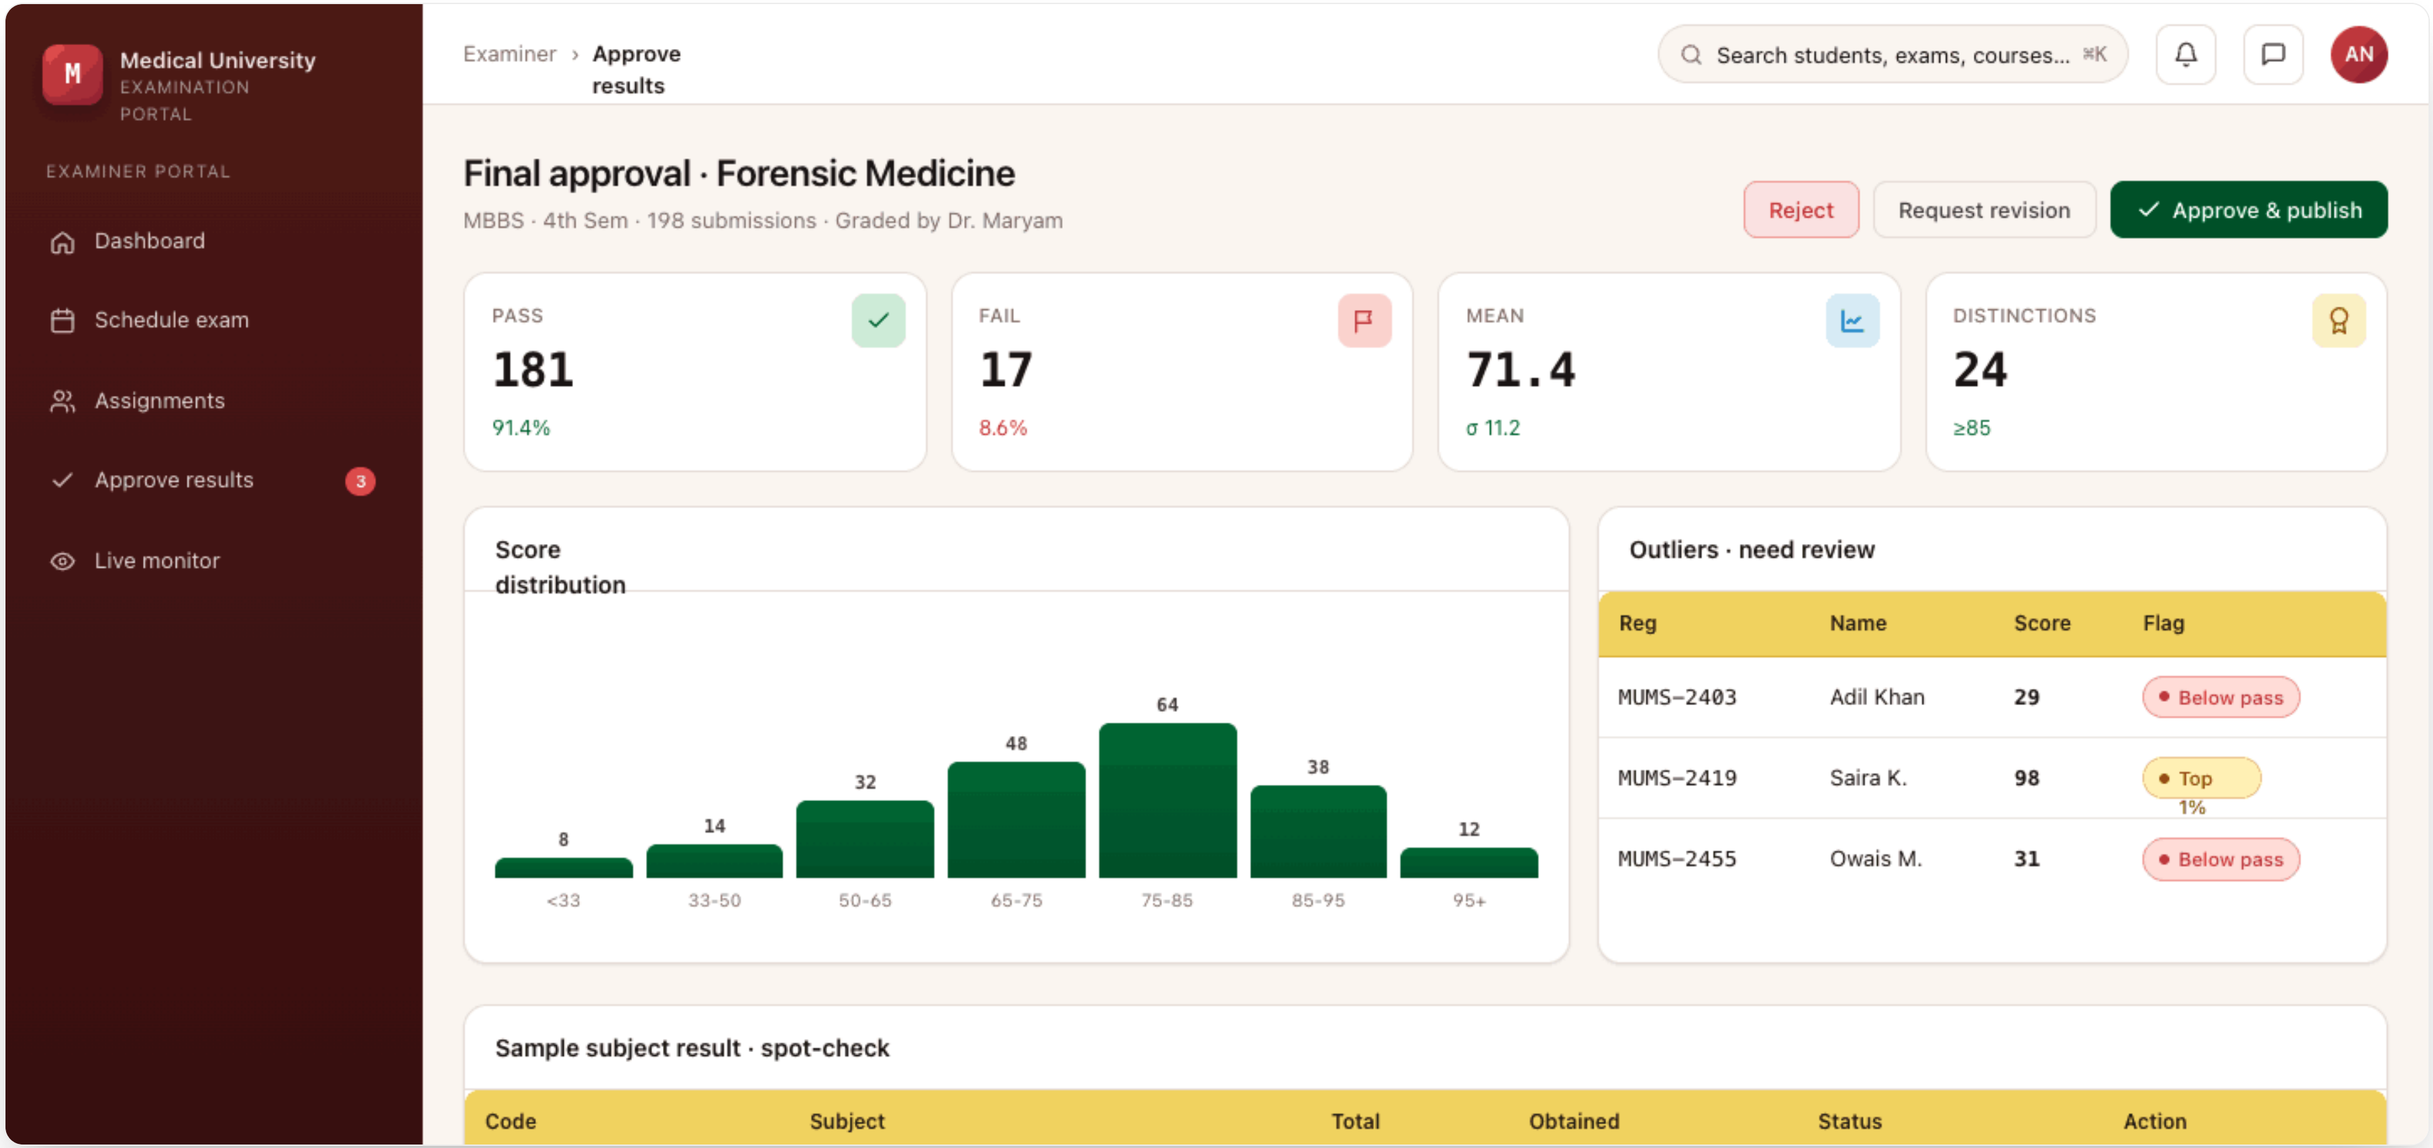

Real-time candidate stream with anti-cheat flags.

E5 · EXAMINER

Result approval

Distribution, statistical outliers, spot-check.

04

ROLE · ADMINISTRATOR

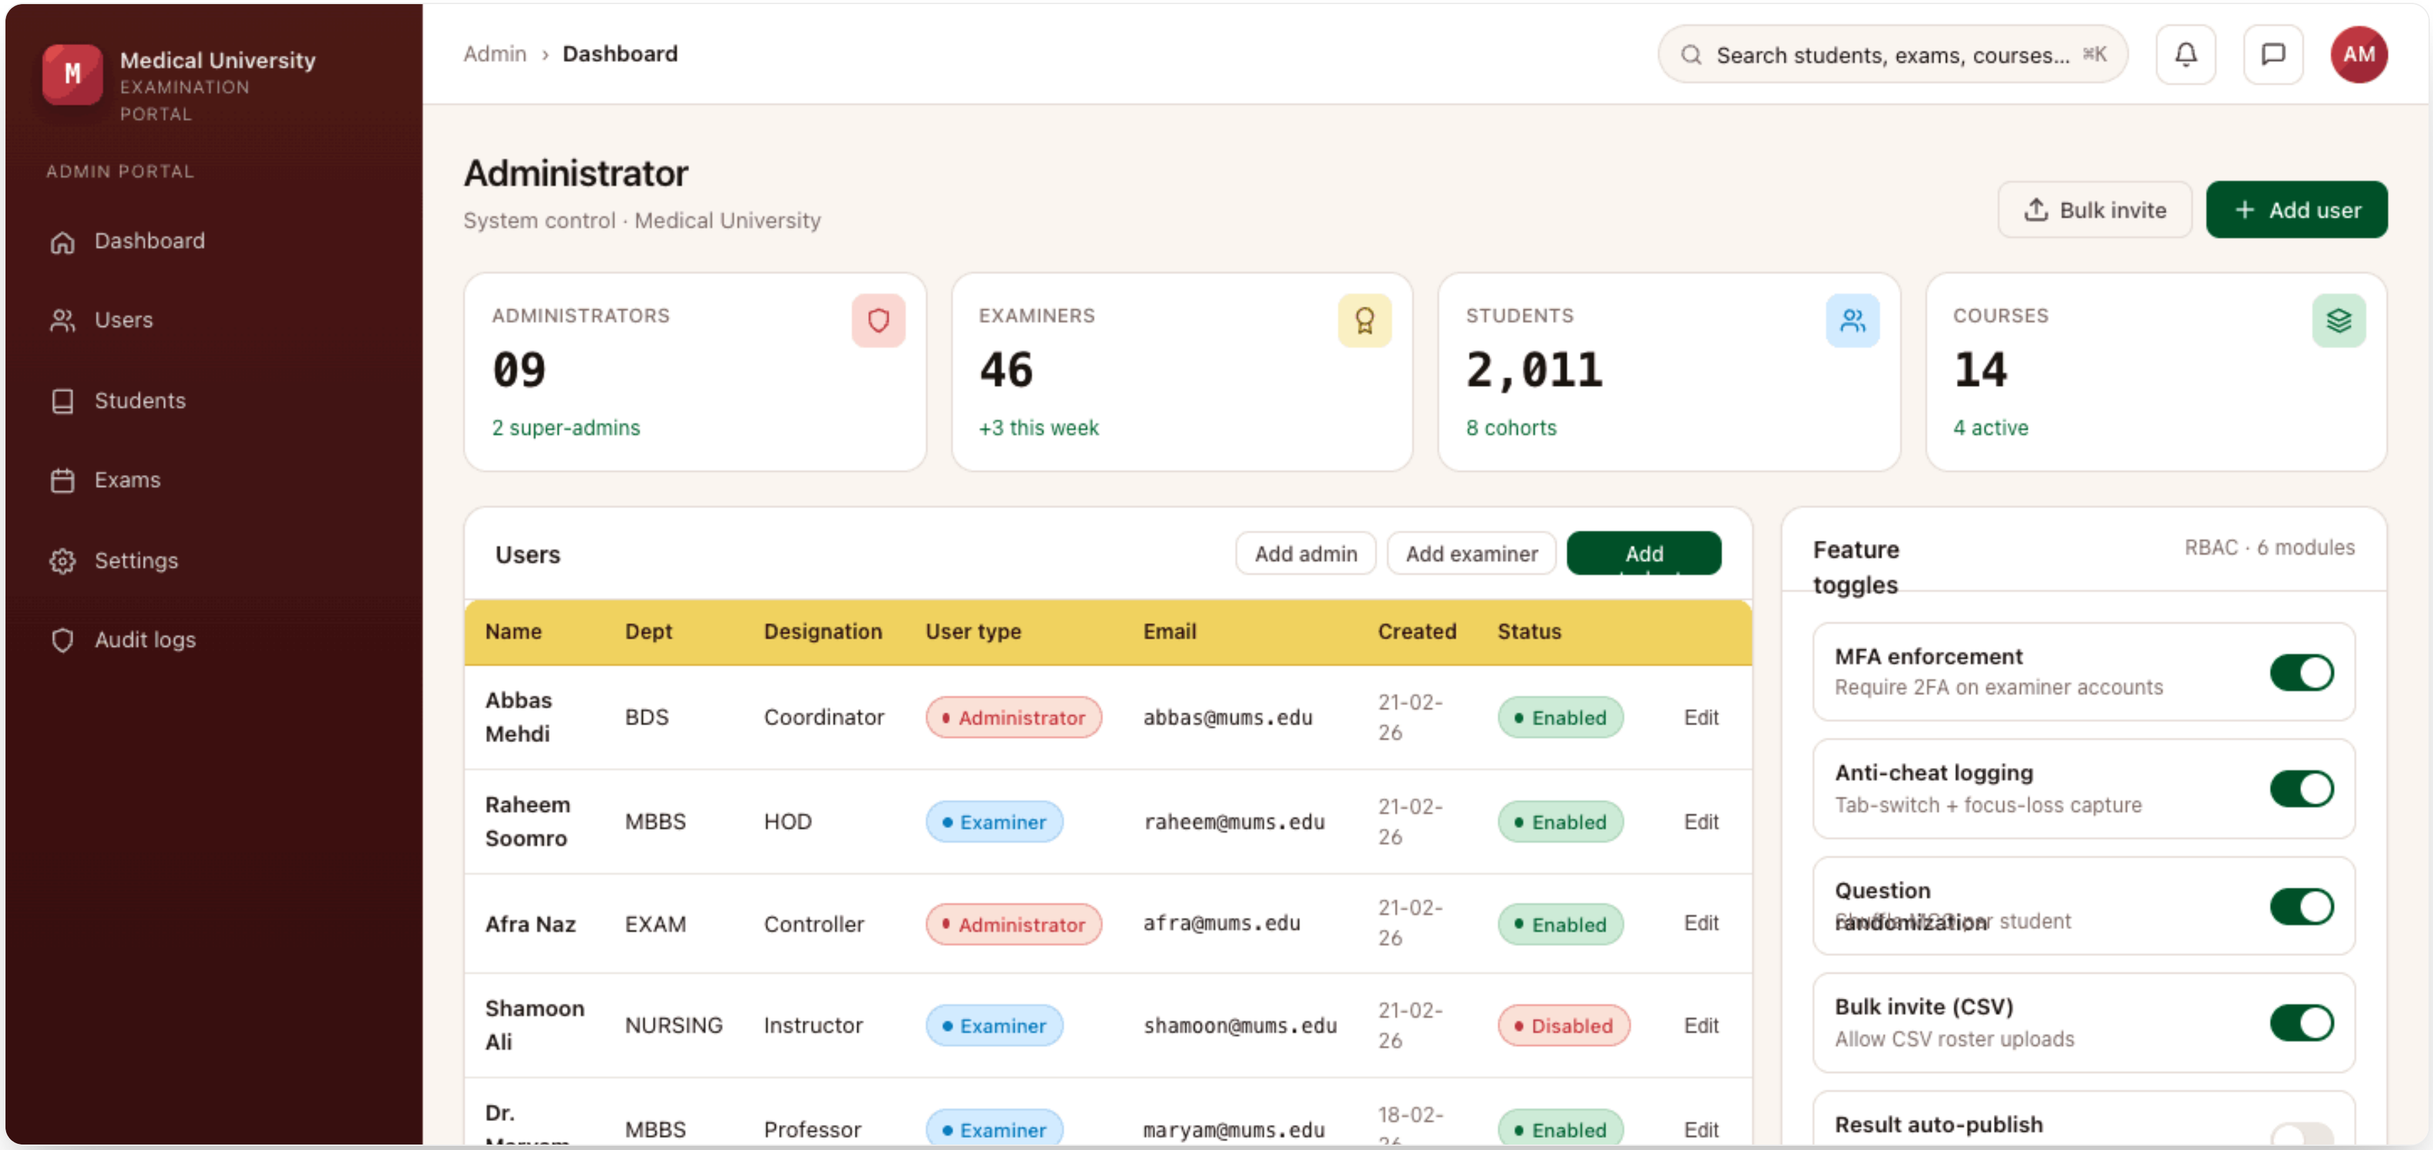

System control

Users, exams, configuration, and the institution-wide audit trail.

M1 · ADMIN

Dashboard & users

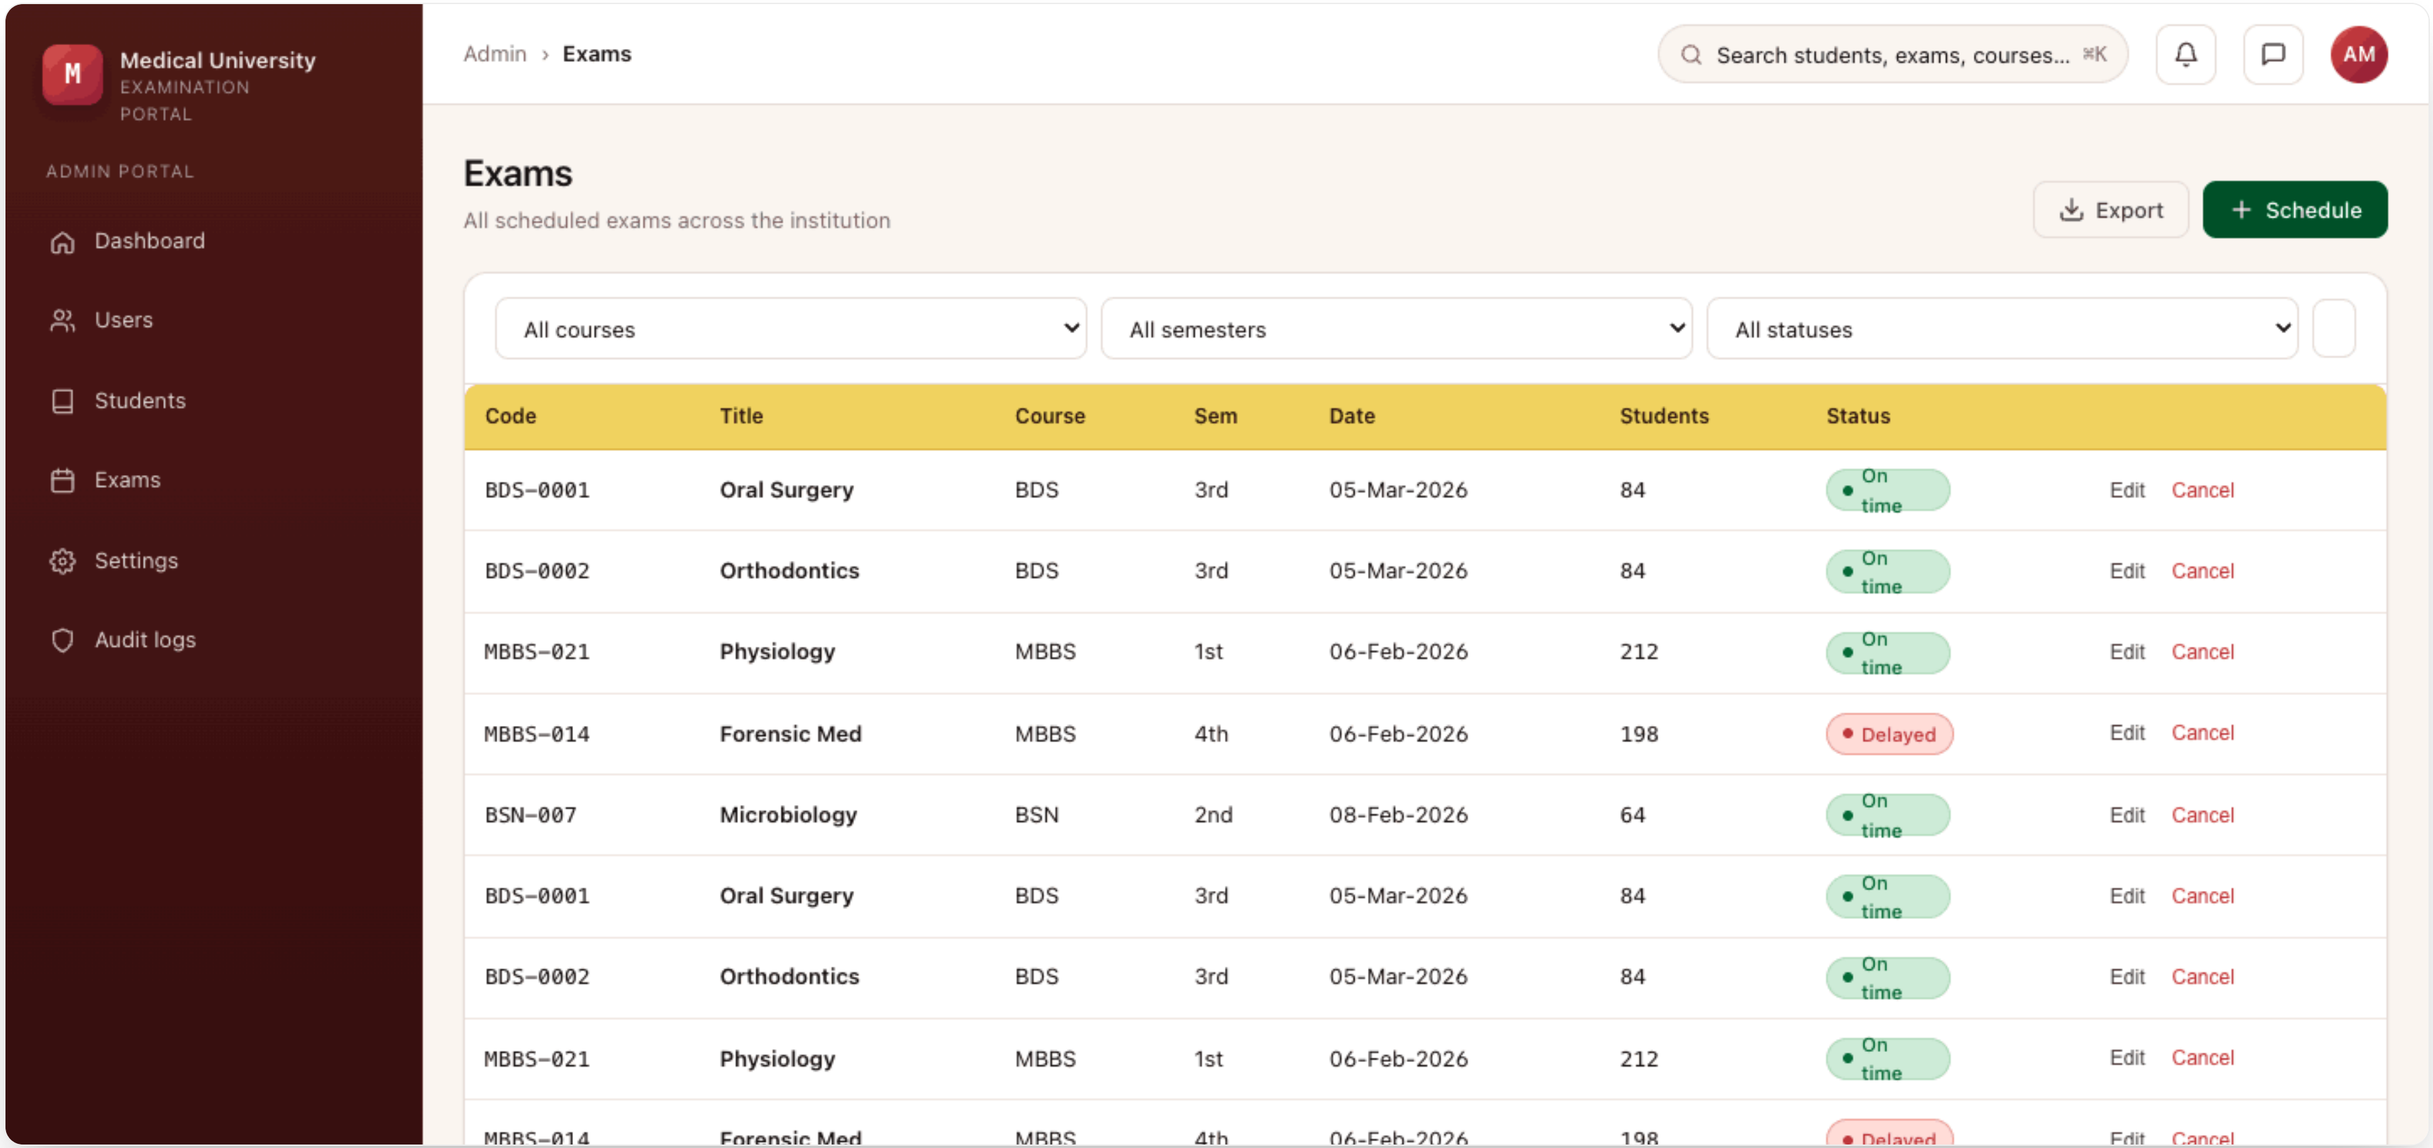

User roster, RBAC toggles, student management.

M2 · ADMIN

All exams

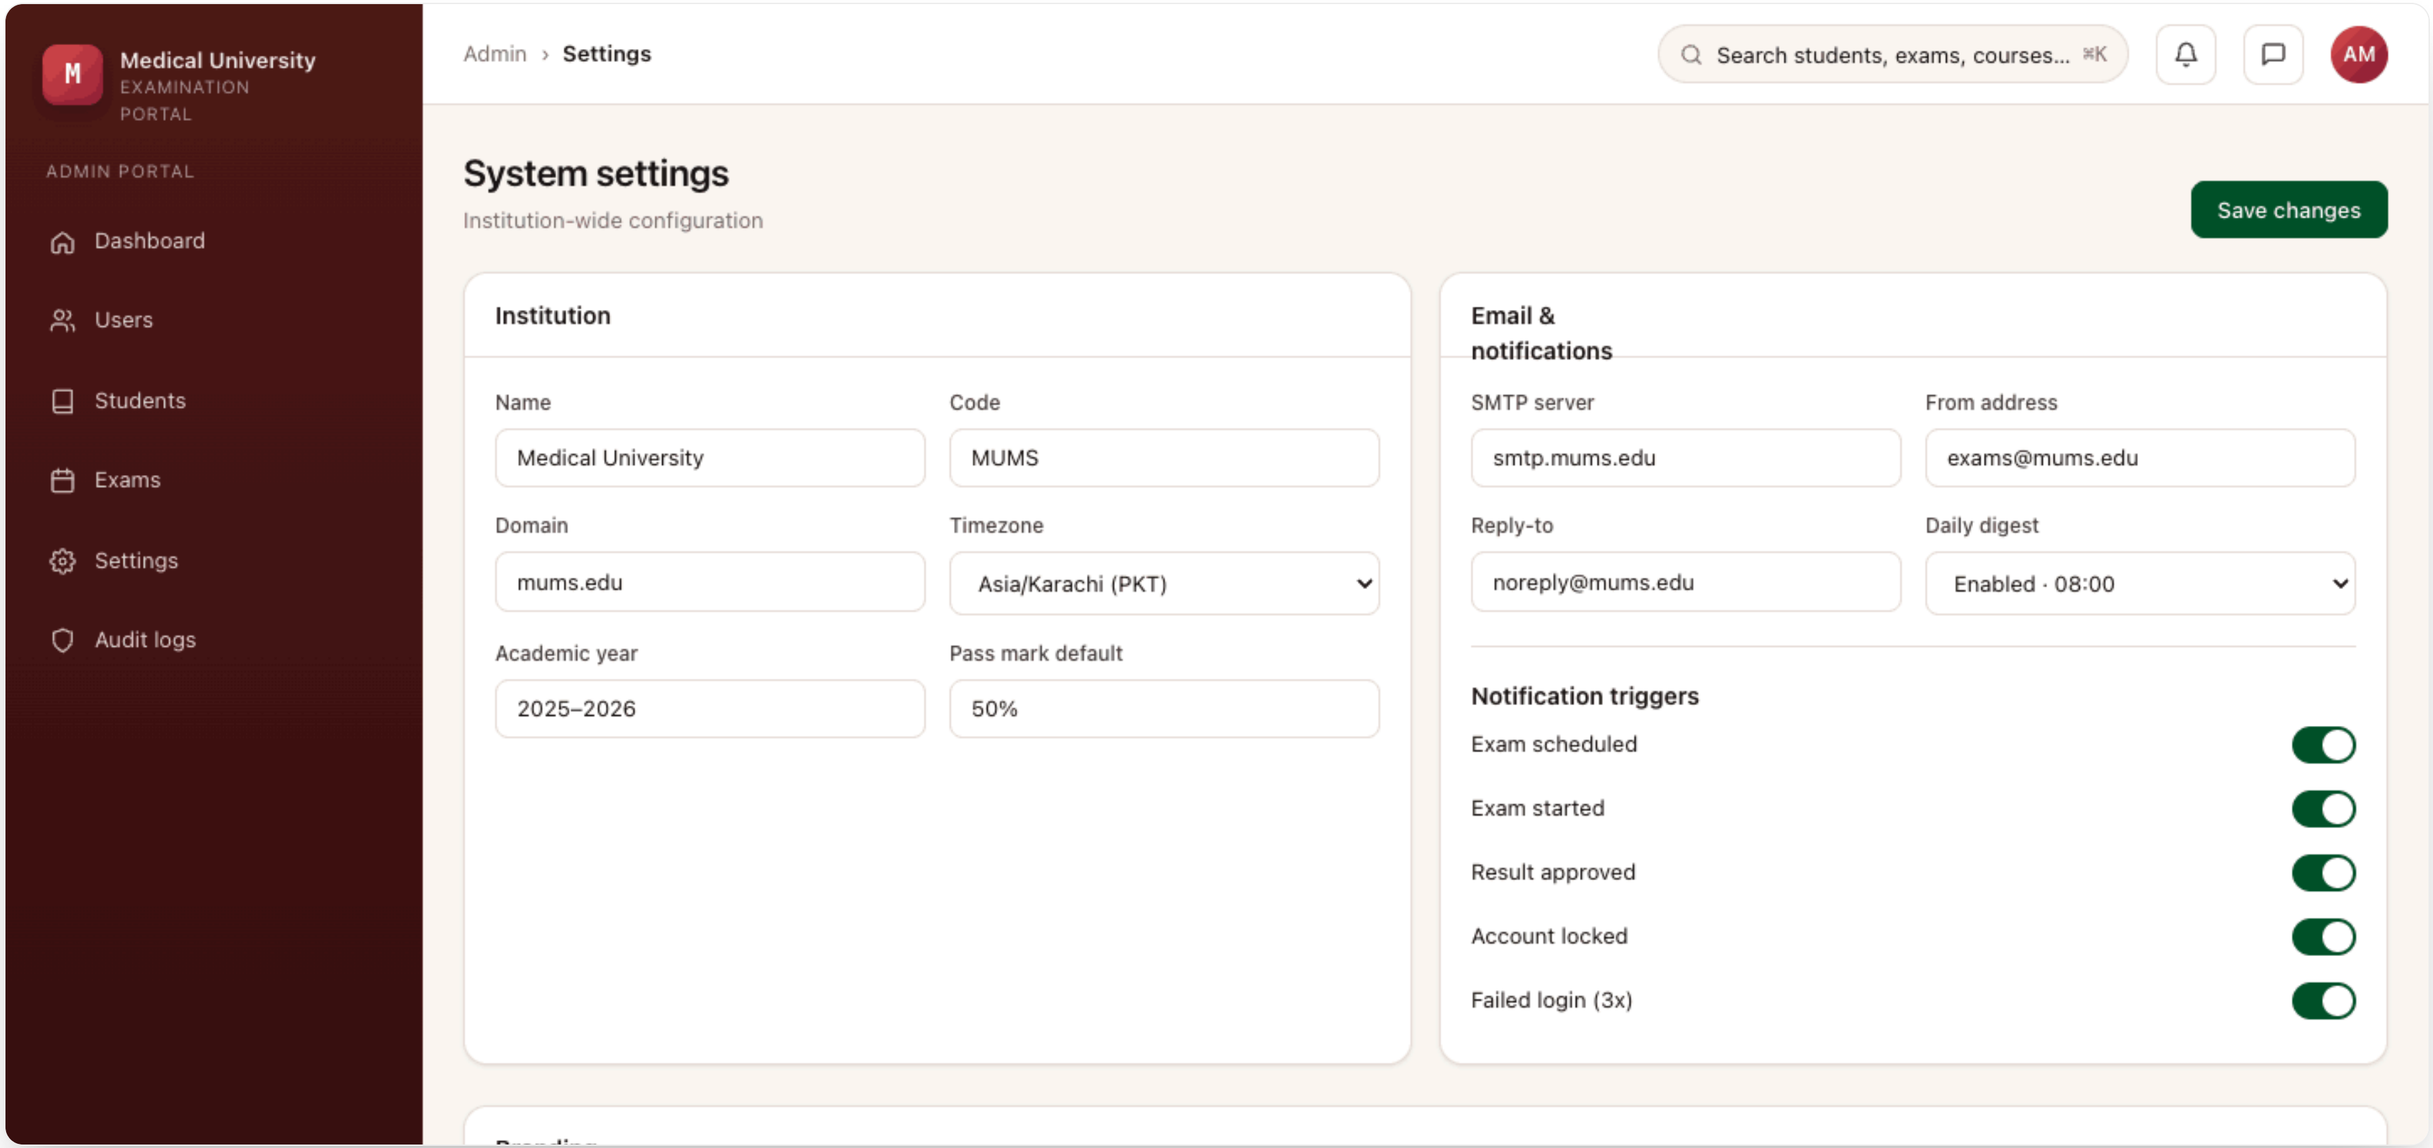

Institution-wide exam list with filtering.

M3 · ADMIN

Settings

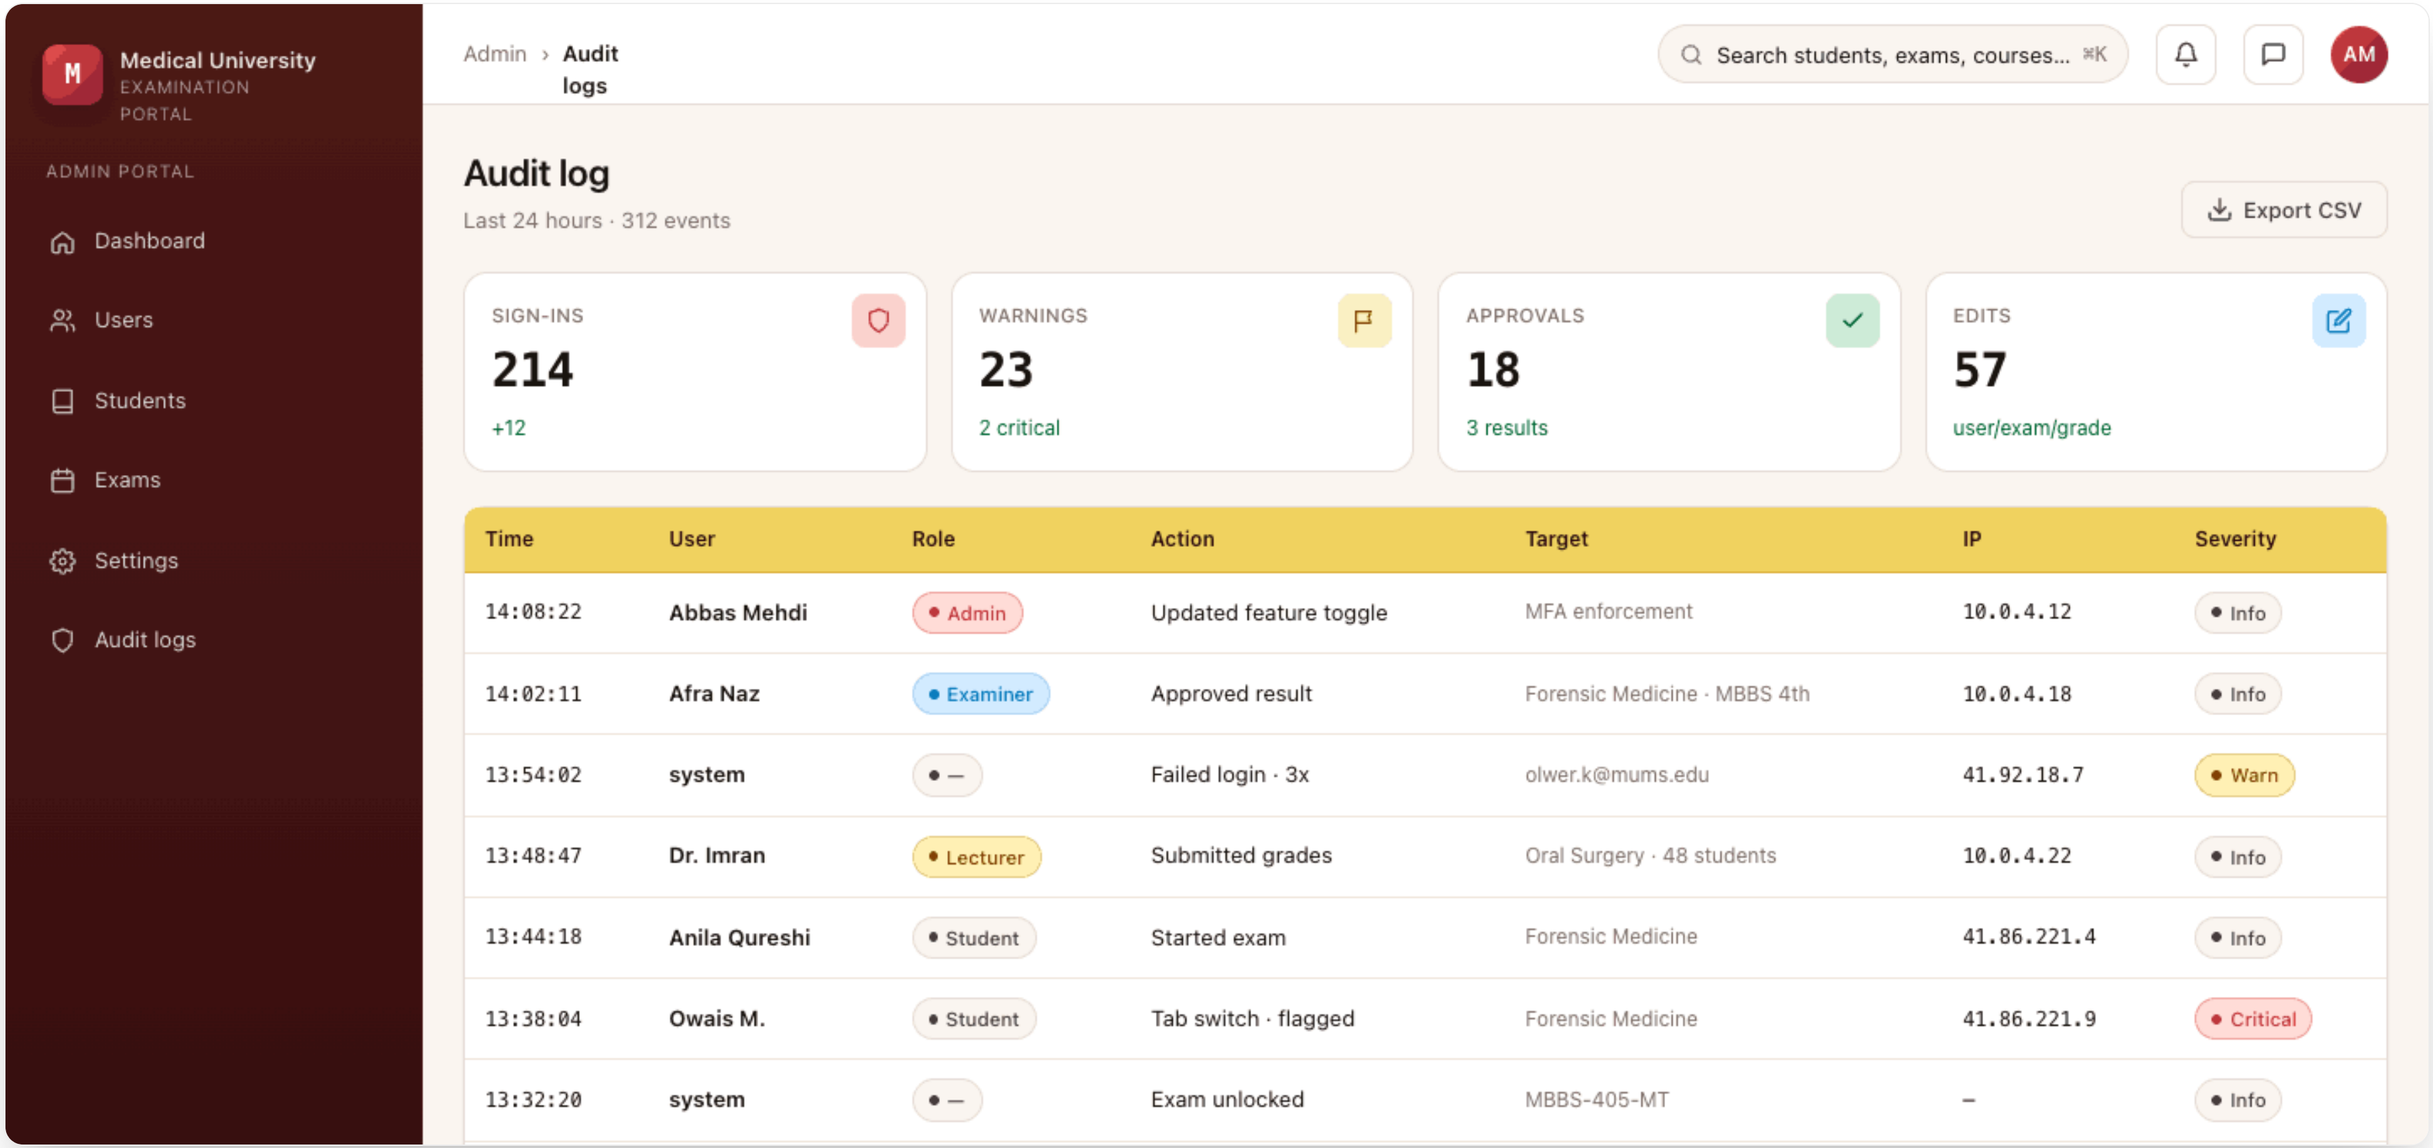

Branding, email/SMTP, notification triggers.

M4 · ADMIN

Audit log

Time-stamped event stream with severity and IP.

END OF WALKTHROUGH

Thank you

A complete pass through the four roles — from candidate enrolment through to system administration — covering every tab and primary flow.

This is a demo

The screens shown here are an early concept prototype intended to spark discussion. The actual system design — data model, role permissions, integrations, anti-cheat policy, accessibility, and detailed flows — would be shaped after detailed discussion with stakeholders, faculty, IT, and the controller of examinations.
